## \$15,000 BUDGET FOR VILLAGE IS APPROVED

The Annual Appropriation  
Ordinance Is Passed  
By Board

The annual appropriation ordinance authorizing the expenditure of \$15,346 for village expenses during the current fiscal year was passed at the July meeting of the village council.

This year's appropriation exceeds that of last year by about \$500, which difference is explained by the fact that two marshals are on the job this year around, and for that reason the municipal officers' fund was increased from \$2,000 to \$4,000; and also that under the new state law it was necessary to increase the amount for the maintenance of the fire department to \$800, whereas only \$100 was appropriated for this purpose last year.

One of the lowest items was that for the maintenance and repair of public buildings, \$150. It was pointed out, however, that the waterworks standpipe and other equipment and buildings had just been put into excellent condition; also that the sewage disposal plant was in excellent repair. Very little repair work on any village property is anticipated during the year.

## NO CLUES ARE FOUND IN GAME WARDEN MURDER

Death of C. Eldredge  
May Remain  
Mystery

The mysterious murder of Charles W. Eldredge, retired Chicago lawyer and McHenry game warden, is expected to be shelved among the unsolved crimes, for lack of any substantial clues.

Sheriff Lester Edinger of Woodstock is inclined to the belief that Eldredge met his death at the hands of angry poachers, arrested for some infraction of the law on his 40-acre game preserve, although the three who were questioned all offered satisfactory alibis.

Eldredge was found dead on his island estate in Nippersink creek, near Richmond, on July 4, shot with the same gun with which his brother had been slain under similar circumstances twenty-four years before. Eldredge had carried the gun ever since that time.

For a number of years, Eldredge had served as an inspector in Lake and McHenry counties for the state department of conservation. Previous to that he was chairman of the Republican central committee in McHenry for two years. He served as a member of the legislature for two terms from Chicago.

## ANTIOCH MERCHANT SERIOUSLY INJURED THIS AFTERNOON

S. J. Hudoc, Antioch radio and accessory dealer, was badly injured early this afternoon when he was struck by an automobile, driven by Glenn Bull, of Winnetka, while he was assisting a motorist change a tire on highway No. 21 just north of Antioch.

Witnesses said that as his friend's car, the Winnetka car, swerved and struck him. He was carried along 40 feet before the car ran over him.

Hudoc was taken to his home at Cross lake, a short distance from the scene of the accident, where he was found to be suffering from a broken collarbone and internal injuries, the extent of which have not yet been determined.

It is feared, however, that his hip is broken, and that he may have to be removed to a hospital.

## TOWN TEAM TO PLAY THE STRONG WRIGHT SCHOOL

The Town team has a tough game scheduled for Sunday with the Wright school, reputed to be the strongest team in this vicinity. The boys are confident, however, that they will show the spectators a good game of ball.

Sunday's game with Pleasant Prairie ended in a 7-4 defeat for Antioch, due to the close pitching of Breuch, the Prairie hurler, who allowed but three hits. Bown started the pitching for Antioch, but was relieved in the third by Patterson. Although allowed but three hits, the local boys copped more runs through the errors of the opposing team.

Miss Dorothy Erkman returned Tuesday to her home in Carmel, Ill., after a visit of ten days with her sisters, Mrs. H. B. Gaston and Miss Helen Erkman.

## An Obnoxious Weed

## JOBLESS MAN WRITES FOR ANTIOCH NEWS

Depression Victim Wields  
Pen for Price of  
a Feed

"Any proofreading I can do for a little while?" asked the tall, gaunt, middle-aged man who called at the News office right up to scratch, the man inquired about any other work that would earn for him the price of a feed. "I'm hungry," he said.

"Okay, here's a pencil, there's paper," the stranger was told. "Write for publication. Tell us why you are out of a job, why the depression, what's wrong with anything, or everything."

Left to his own resources, the News "special writer" concentrated upon the ills of this cock-eyed world and, after a brief twenty minutes emerged from the sanctum with an essay, which proves conclusively that many capable men are actually in want and are roving the country in search of honorable employment. "It's a helluva system that creates want and misery in a land of plenty," was the stranger's comment as he turned in his copy.

What's Wrong With the Farmer? Consumption has not increased as fast as production, the Malthusian theory to the contrary notwithstanding.

In 1915, the American farmer, on account of an increased European demand for foodstuffs, commenced to see daylight ahead. Swamps were drained, farms tilled, and the cut-over lands were put under cultivation. The semi-arid lands in eastern Colorado, western Kansas and Nebraska, a belt over 300 miles long, went under the plough, and still the insatiable demand for more and more wheat continued.

A short time subsequent to the armistice, a new species of wheat which matured a couple of weeks earlier was evolved, which enabled Argentina and Canada to extend their belts further south and north. Russia, the largest wheat exporting nation under the czarist regime, had, under the Soviets, remained dormant for years, but under the able direction of Tom Wallace, the great Montana wheat farmer, is rapidly coming to the front again, and commencing to dump its surplus on the world's markets.

The Farm Board advises all and sundry to "decrease production," and, paradoxically, the Reclamation Board is devising ways and means of putting more land under cultivation.

The Board's 250,000,000 bushels of wheat is a Damoclean sword suspended over the home market.

It can't be dumped in the ocean. Storage takes a heavy annual toll.

Combine good business with philanthropy by giving a few million bushels yearly to the starving Chinese, which would earn their undying gratitude, help create a new market, and help us, like Frankenstein, to rid ourselves of a monster that is destroying us.

## Fox Lake Inn Robbed of \$300 Worth of Goods

Burglars' Arrests Expected  
Shortly; Reward Is  
Offered

Arrest of the burglars who robbed the Ace Inn at Fox Lake of \$150 worth of merchandise and \$150 worth of silverware, Monday night, is expected shortly.

The owner, Vincent W. Koegler, admitted to Deputy Russell McBride that he had reasons for suspecting the burglar, and was willing to sign a complaint against the suspect.

Investigations immediately after the robbery revealed that the burglars had forced their way into the restaurant. They did not get any cash as Koegler had taken the day's receipts when he closed the place at night. It is stated that a reward of \$25 has been offered for the arrest of the thief and recovery of the goods.

Pouring oil on the troubled dusts of Park and Orchard streets is O. K., but why doesn't some kind soul invent something to keep down the moisture on our troubled brows these Sol-ful days?

Lon Runyard says that he has learned to roll his own, but he guesses Marshall Brogan will see to it that he doesn't mean his socks.

Why is it that everyone is experiencing a let-down from the Fourth? Surely no one flew very high? Of course, those who ascended into the ether via the ferris wheel during the festival were apt to acquire dreamy ideas when they looked over the town and beheld lights from King's drug store sign twinkling as from a fairy palace. No kiddin'. Those lights contain a thrill.

It occurs to us to wonder why Clarence Spiering doesn't start a new endurance racket—that of "church squatting." We'll have to admit that he has quite a head-start, but he might be magnanimous enough to wave aside these past few months' get his lawyer and carpenter busy building a number of belfries and let all contestants start even.

Rules for contestants: (1) No guns allowed; (2) anyone having contracted mumps will be ineligible; (3) no one will be allowed more than three appeals.

A. J. Cermak passed through here yesterday. Probably, Tony felt the need to escape into the lands of cooling lakes and shade trees for a few hours. So do we, but what of it?

Maybe we'd better say nothing more about the atmospheric conditions—weather is a dangerous subject. If you say, "Nice day, isn't it?" anything may happen; A glare, a groan, a bucket of water, or a stroke. Take your choice.

Figured on the most conservative basis, it will cost the village of Antioch \$15,346 to conduct its affairs for the fiscal year May 1, 1931 to April 30, 1932, according to the appropriation ordinance passed by the village board at the last meeting.

The major items include \$4,000 for salaries of municipal officers, \$1,500 for street lighting, and the same amount for maintenance of the water department. Outstanding bonds and interest require \$1,546. The smallest appropriation is \$150 for maintenance and repair of public buildings.

## MASONIC FUNERAL HELD FOR YOUNG ANTIOCH DENTIST

Dr. F. S. Morrell Succumbs  
to Long Illness at His  
Waukegan Home

Masonic funeral services for Dr. Fred Morrell, Antioch and Waukegan dentist, were held in Waukegan Tuesday.

Dr. Morrell succumbed at his home on 921 Ash street, Waukegan, Monday morning after an illness of several months. His health had not been well for the past two years.

He was well-known in Antioch, having practiced here for twenty years, and lived here for ten years, until he opened an office in Waukegan ten years ago. At the time he moved to Waukegan, he opened the Morrell Motor Sales, which he disposed of a year ago.

He was born in Augusta, Ill., June 22, 1882. He is survived by his wife, Edith, his son, Robert, Speed Morrell, and a brother, Dr. Gardner Morrell, of Chicago.

The local Masonic lodge, No. 827, A. F. and A. M., of which he was a member, took charge of the funeral services, which were held from the Waukegan and Peterson funeral home in Waukegan, with the Reverend S. E. Pollock officiating. Louis Shults, Adolph Pesat, Jr., L. M. Hughes, Ed Garrett, Walter Scott, and Arthur Bock served as pallbearers. Interment is in the Forest Home cemetery at Forest Park, Ill.

## MOOSE NOSE OUT MERCHANTS 7-6

Both Teams Determined to  
Take Last Game of  
3-Game Series

A scrappy game between the Merchants and the Moose Monday night ended in favor of the Moose, 7-6. Although these teams are very evenly matched, the Merchants have been nosed out twice by the Moose, the first time by a score of 3-0.

The Merchants just played ball, without scoring for three innings but in the fourth they hooked three, almost tying the score with the Moose, who had managed to put across one run in the first two innings and two in the second. In the sixth and seventh the Merchants gained a 2-run lead, but the Moose came back in the eighth with three runs, and took the game.

Teams Show Spirit. A friendly rivalry is felt keenly by both teams. The Merchants with their manager, Otto Klass, as spokesman, say that they are resolved to turn the tables in the next conflict, but the Moose are determined to make it three in a row.

A game between the Firemen and Lake Villa had been scheduled for Monday night but due to misunderstanding, was not played.

The Merchants will take on the Firemen at 6 o'clock this afternoon, while the Moose play Lake Villa on the Lake Villa diamond.

James A. Kerrulsh, of Douglas, Ill. of Man, and his son and wife, of Chicago, are visiting Mr. and Mrs. Thomas Coole at Leona lake this week. Mr. Kerrulsh has found many friends in Antioch, although this is his first visit to America. He hopes to return in 1933 for the Chicago World's Fair.

Dr. H. F. Beebe returned from Rochester, Minn., this morning, and reports that his son, John Beebe, who underwent a serious operation Monday, is showing satisfactory improvement, although he is not entirely out of danger. Dr. Beebe was present at the operation.

## Recover Body of Man Drowned In Silver Lake

The body of Edwin Johnson, 45, Chicago stationary engineer, who was drowned in Silver lake Sunday, was recovered Tuesday after a 2-day search.

The body was sighted floating on the lake by A. F. Fiegel of Silver lake while he was rowing out into the lake to fish.

Johnson was drowned while attempting to teach his wife to swim. They had come with another couple to enjoy an outing and had gone out in a boat to a sandbar. The Johnsons had gone into the water, and while Johnson was trying to teach his wife to swim, he was seized with a cramp, and went under, dragging his wife with him.

Mrs. Johnson was rescued by Joseph Von Drasen, Chicago, and was taken to shore with her friend, Miss Catherine Kneltz. Johnson was nowhere to be seen.

A search was begun immediately, and continued throughout the day, and on Monday, ending with the finding of the body early Tuesday.

## Townships Must Solve Own Pauper Relief Problems

Burden Will Fall Heavily  
Upon Populous  
Towns

Lake county paupers are facing a crisis while political leaders seek ways and means of providing relief for the needy until a tax levy can be made and funds collected, or a bond issue floated for this purpose, since by reason of Senator Paddock's legislation the burden of caring for the poor has been shifted from the county at large to the several townships.

No township in Lake county has funds for poor relief, and will not have such funds until a tax levy can be voted at the annual town meeting next April, and even then the money will not be available until tax collecting time a year later.

In townships having populous centers the burden will fall heaviest. Waukegan township will face an additional burden of \$100,000 for the township poor which may add as much as 20 cents on each \$100 property valuation, while Deerfield, Shields, and Libertyville will be forced to increase in proportion.

Antioch, having few who receive help from the county, and being relieved from its part of the county tax for poor, should profit when the new law becomes practically operative.

Special elections for the purpose of floating bonds for poor relief have been talked of in many of the townships.

## Spiering Claims Errors In Trials; Will Appeal Case

Important Facts Were Not  
Admitted as Evidence  
by Judge, Is Claim

The Hickory Corners church "squalor" Clarence Spiering, once more will appeal his case, after being denied a new trial Monday afternoon by Circuit Judge Ralph Dady, claiming that several errors have been made in the trials. His attorney Charles E. Jack, is perfecting his appeal from the decision that the trustees had the right to oust him from his church. Spiering's attorney claims that an error was made when Judge Dady refused to admit the deed to the church property as evidence. The church property, he declares, was turned over to the trustees until such time as the grounds and building were no longer used for church purposes, in which event it was to revert to the heirs, according to the original deed. As no regular services, which include the Methodist ritual of taking a collection, holds that the property should revert to him.

Determined to Fight. Among other technical errors, Spiering protests that the suit was not begun legally, as only one trustee, started authority from the board, started suit. Later, when this was protested, Judge Dady permitted the suit to be amended to include the board.

A protest of Judge Dady's failure to record in the evidence the fact that the twelve members have been transferred to the Antioch Methodist church, leaving the Hickory church memberless, will form a part of the appeal.

Should the appellate court uphold Dady's decision, attorneys believe that if Spiering is able to post the \$25,000 appeal bond, it will be at least two years before he can be evicted.

Spiering and his family have been dwelling in the church since their own home burned in February. Since then, the squatter has won one court victory, when he was declared not guilty of a charge of malicious mischief.

## WORK STARTS ON ROUTE 173

Surveyors Make Final  
Stakeout of Route  
For Contractors

POUR CEMENT  
AT RICHMOND

Grading and culvert and bridge work on the Antioch-Rosecrans section of state route 173 will start Monday, according to state surveyors, headed by Clarence Peterson of Elgin, who are making final surveys and staking out the route.

Approximately 7 miles of the stretch, from Rosecrans to the Nuel farm a mile east of Antioch, will be completed this year, according to present plans of the state highway department. Near the Nuel farm the road will leave the present right-of-way and proceed westward to the southern limits of Antioch over a newly acquired course. The entire stretch, with the exception of this new right-of-way, is practically straight, and all of the required land has been released by property owners with but one exception. That small difficulty will not halt the construction work, officials announced.

Ray Mann, Rockford, has the contract.

Pouring Cement at Richmond. With all culverts and bridges practically completed from Richmond to Hatches Corners, just west of Fox river, cement pouring on that sector will begin next week, the contractors announced. Grading of the entire road is well under way, and it is expected that no difficulties will be encountered to interfere with the construction work. Barron & Darrow, Waukegan, have the contract. The cement work was sub-let to an Elgin firm.

## Co. Odd Fellows Installed In Office

Installed In Office  
At Public Meeting

Floyd Horton to Head Local  
Lodge as Noble Grand  
for Ensuing Term

Officers of the Antioch, Waukegan, Highland Park and Libertyville lodges of Odd Fellows were inducted into office at a public installation at Libertyville Monday evening.

Floyd Horton was installed as Noble Grand for Antioch, Tom Burnette as vice noble grand, William Runyard as secretary, and Nelson Drom as treasurer. Those appointed were: Russell Barnstable, right supporter of the Noble Grand; George Steininger, left supporter; Nelson Drom, warden; Wilbur Hunter, conductor; Carl Ball, chaplain; right scene supporter, C. L. Kutli; left scene supporter, Jay Cribb; outside guardian, L. M. Hughes; inside guardian, Matt Sorenson; right supporter to the vice noble grand, Hugh Gussarson; left supporter, Herman Cubbons. As Drom, Kutli, Sorenson, and Cubbons were not present, they will be installed later.

After the installation, several speeches explaining the work of the Odd Fellow lodge, and of its sister organization, the Rebekahs, were given by Dr. Nauman, master Grand Master of the state of Illinois, Mrs. Grace Bairstow, Waukegan, president of the Rebekah state assembly, and David Gordon, Chicago, grand warden of the grand lodge, and Brother Scott, Waukegan, district chairman of the thirteenth district.

The installation was attended by over 300 members and friends of the Odd Fellow and Rebekah lodges in the county.

## CHICAGO DENTIST OPENS OFFICE HERE

Dr. John L. Zimmerman, former Chicago dentist with offices on Devon street at Western avenue, and oral surgeon for the health department of that city, has opened his office here, occupying the suite with Dr. H. F. Beebe in the Webb building.

Dr. Zimmerman says he likes Antioch. The family will reside in the Naber resident on Spafford street, formerly occupied by County Superintendent W. C. Petty and family, who are just completing their new residence across the street.

## IT WILL NOT SUCCEED

No one should be denied the right to hew out his own political destiny, but we are of the opinion that there are no influences powerful enough in the great state of Illinois to deliver the party of Lincoln, Logan, Grant, Oglesby and Cannon to the prohibition party.

These great sons of Illinois stood for "government of the people, for the people and by the people." Lincoln died for human rights. The others fought on the battlefield and in the halls of Congress for human rights and against oppression. Followers of these great statesmen must not and will not permit the work of their idols be dimmed by the fallacy of prohibition, which the great majority of the people of Illinois have never espoused.

If the states are given complete control over the liquor problem, we would be confronted with the possibility of saloons in every building on all border lines of the states that favor saloons. In other words, if, under the policy of state control, Illinois did not want saloons and Wisconsin desired to have saloons, we would be in just as serious a condition as we are in today with bootleggers and racketeers. It is evident to any sane person that the people don't want the saloon and they don't want prohibition.

There are two good ways of treating gossip about other people. One is not to listen, the other is not to repeat.

## CUTTING PRICES

Cutting prices may frequently save time and trouble, but do you know that on a 25 per cent margin of profit a price cut of:

Five per cent requires 18 2-3 per cent more volume.  
Fifteen per cent requires 112 per cent more volume.

In other words, if you cut your price 15 per cent on a \$100 sale, it is necessary for you to sell \$112.50 worth of additional merchandise before you can make the profit of \$25 to which the original sale entitled you.

## A FREE PEOPLE?

Americans are a free people. Free, that is, if they carefully obey some 20,000 or 25,000 laws and regulations, and are prompt to heed the orders of the various bureaus, commissions and boards that preside over their destinies.

Probably no other nation has come in for so much legislation as the United States. Quantity, rather than quality, seems to be the ideal of our law-makers. Whether it is a matter of owning a revolver for sport or protection,

or attending a Sunday picnic, we are liable to come in conflict with the forces of law and order.

Apparently we have been working on the theory that human nature can be changed by legislation. At present more than 2,000,000 persons are afflicted with movements having to do with minding other people's business. The self-styled reformer and moralist have been supreme. And the result has not been a more stable and peaceful society, but an amazing orgy of law breaking and criminality. More laws make more crime, seems to be a new American axiom.

## TAXATION AND CONFISCATION

There is a point where taxation becomes confiscation—when it goes beyond what the people can reasonably pay.

Many American communities are fast reaching this point. Tax rates have gone up 100 per cent or more in a comparatively few years. A multitude of special taxes are being levied. Class taxation has become a commonplace. Both businesses and individuals find the tax-collector a barrier in the way of industrial expansion and personal prosperity.

A condition such as this cannot long continue without placing the nation in a position from which it may take years to recover. The present spectacle of debt-ridden European nations should be a warning to public officials to do everything in their power to promote government efficiency, limit its operations to fundamental governmental duties, and keep expenses down.

## THE REAL ISSUES

Public officials who are now seeking to find which way the political wind blows probably have been interested in a questionnaire sent to 5,000 people by the National Economic League, asking them to list the leading political and economic problems now facing the country in the order of importance.

Prohibition came first, followed by administration of justice, lawlessness, unemployment, crime, world court, and taxation. This would seem to indicate that the legislative problem, in one phase or another, principally engages the public attention, with the business depression and tax situation as runner-up.

Of particular interest is the fact that the power issue—now being boomed in many states—was an also-ran. It came fourth, far behind child welfare, reduction of armaments, socialism, international relations, conservation of national resources and similar issues which usually receive much less attention. Apparently that part of the public which takes a genuine interest in government has not been swayed by the war against the electric utilities.

All in all, the survey is encouraging. Prohibition, crime, the world court and taxation are, no matter what side one may take, real issues, of great significance. On their solution depends, to a large degree, the future of this nation. It might be well for the office-seekers to take a hint and go into their campaigns with definite programs for disposing of issues nearest the heart of the thinking public.

## WILMOT H. S. DISTRICT NO. 9 ELECTS CLERK

### Lutheran Sunday School and Congregational Picnic Is Planned

At the annual meeting of the voters of district No. 9 at the high school Monday evening, Harry McDougall was elected clerk. A motion to raise \$2,500 for next year's expenses was carried.

## Justify His Trust In You

Your boy, who looks up to you as the idol of all his dreams, who, in his dreams of the future, wants to emulate you; help him later in life, by saving for him now; for his mental and physical equipment with which to face life on his own. This at least you owe your son or daughter. And it is not hard to do; just remember to save a part of your salary each week at the First National bank, and before you know it his future will be safe.

## BEAUTIFUL NEW FORD

De Luxe  
Bodies

TOWN SEDAN DE LUXE SEDAN

CONVERTIBLE SEDAN

DE LUXE TUDOR VICTORIA

CABRIOLET

THE most striking fine car types ever offered at such low prices are now being presented by Ford dealers. These are the six newest de luxe creations of the Ford Motor Company. They are designed and built to meet every need of the automobile buyer whose desire for motoring luxury and outstanding performance is tempered with sound economy.

Get the facts about these fine cars. Compare their lithe, clean-cut style with any you have ever created in your own imagination. Learn about the de luxe materials with which each car is trimmed and upholstered, and how carefully these are tailored. Sit and ride in the wide, restful seats and you will realize that just as no restrictions have been put on mechanical performance, so no limits have been placed on comfort and beauty.

There is much to interest the careful buyer—a choice of sparkling colors, a variety of rich upholstery materials, Rustless Steel, safety glass, Houdaille double-acting shock absorbers, one-piece welded steel wheels, slanting windshields, and many other features which make the Ford a happy investment.

## Think It Over

### Taxpayers' Questions

How will the supervisors keep their promises to retire around \$500,000 county road bonds with the state refund and will they thus lower future taxes on the farms which are being practically confiscated by excessive taxation for all sorts of things?

Why is there even talk about using the state refunds for building additional roads, especially when there is a gas tax system to support new projects?

How many citizens of Illinois and particularly of Lake county are employed on the new highway work in Lake county, especially southwest of Libertyville and how many workmen on our highways are from Indiana and other states?

In what manner are the promises to employ local citizens on our highways being kept and who is to blame for the condition of affairs, especially when Senator Paddock has shifted the poor relief from the county to the township which are already so overburdened with taxes for purposes other than poor relief that the taxpayers expect the unemployed to get the local tax money for building highways?

Why is the state lavishing so much tax money for brick resurfacing of the Volo-Grayslake highway which will have a 20-foot width instead of the present 16-foot width?

Cannot a system be provided for highways where they are more needed?

When will each candidate for governor indicate to the taxpayers of Illinois whether or not such candidate will recommend to the legislature that it should provide the municipalities with a substantial part of the gas tax in an amount at least one third of the tax in order that the municipalities may themselves provide better and wider pavements for the farmers to get into and out of the municipalities with their produce, etc.?

When will some candidate for governor pledge to the taxpayers that his party and administration will adopt a policy of removing and keeping out of public office all persons who personally attempt directly or indirectly to profit financially from public affairs, especially public contracts for highways, with the premiums incident to surety bonds, and in particular also from the premiums incident to receiverships of banks which are closed by the state authorities?

What square shooting taxpayers will aim below the belt of aldermen who try to sift out of the current tightwad contributions of taxes a measly \$12 per month salary for aldermanic pork and beans before raising the salaries of firemen or policemen \$15 per month?

What do taxpayers care if a council does renege on three new cops if the police jack pot is already thousands shy and the taxpayers cannot get the banks open for a bigger kick in for a greater and better force?

Where is the taxpayers' profit if the injunction padlock is simply shifted from prohibition to prostitution duty?

Which are cheaper for taxpayers, police or padlocks?

For the bent, if not busted, taxpayers, was not the Fourth of July great and glorious in that the battle of the beer barons so far resulted in some \$800 being paid into the public cash box and the big shots' kick-in must come after the end of the continuances?

Will the competition between the \$35 per barrel beer and the \$50 result in a merger or compromise at \$42.50 after the padlock is removed from the \$10,000 palace of thirteenth in Waukegan?

If the heads of the local press go in to a huddle over a racket, should taxpayers object if the legs of that press seek crumbs from the racketeers' feast?

If \$200,000 is the offer for the Lake county rackets privileges and if only \$7,000 is the offer for the right to name a chief of police, what is the price of the local press on the chief job and how much are taxpayers expected to kick in for the salaries of the rest of the police force which must protect the rackets from the gun and other play of competitors of any successful bidder?

Mayor Walker of New York has said, "The gorilla who says he has any political power that will reach up to the mayor and police commissioner is a liar." Will the racketeer get the same retort in Lake county municipalities?

Will the Waukegan taxpayers this summer witness a modern financial miracle when the special assessment bonds, issued by the late commission, become due and payable in large amounts for bonds which include huge "Extras" to favored contractors?

## EUROPE'S MOANS SMOTHER CRY OF OUR TAXPAYERS

### Democratic Senator Is Commended for Fine Stand on Debt and Tariff

July 13, 1931.

Senator James Hamilton Lewis, Washington, D. C. Americanizing Washington; Aiding Closed Banks; Lake County.

Dear Senator Lewis: May the organized taxpayers in your district suggest that you camp all summer on the Potomac and continue to rip into the debt holiday and tariff cry and call hard times the real 1932 issue? Thanks and congratulations for statements in Tribune.

At last the taxpayers find a ray of sunshine when a mature senator calls a spade a spade and puts the governmental microscope squarely upon American problems instead of European. In characterizing Hoover's, Hurley's or whose moratorium as a farce disguised in sugar-coated pretenses, you are mild, when the average taxpayer regards it as a fake and fraud upon the Liberty Bond holders who during the next year must help to redeem their own bonds unless the debt funding is suspended to stop increased taxation.

Did you note in the July 11, 1931, Herald-Examiner that Thomas Temple Hoynes, its financial editor, hit the nail squarely upon the head when he recorded what so many humble taxpayers want to say aloud:

"The idea is beginning to prevail in this country that foreign politicians are dressing up affairs in central Europe in the most funeral garments. In reality the situation is not so black as it looks at this distance away from it. Their (politicians) object in making the existing financial condition of Germany and Austria appear as bad as possible in order to secure advantages in international negotiations which

## FARMER DISCOURSES ON OFFICE-HOLDERS

"Many men of many kinds; many men of different minds," are office holders. There are, however, some points on which all their minds are fixed—Hold office just as long as they can, and take care of their friends, relatives, and the politicians.

A peculiarity is that once a man is elected to an office, he assumes that he is indispensable. No matter how minor the office, nor how little he does while in it, he tries to hold on to it for life, and then pass it on to his friend. Some office holders seem to think that even the sun could not rise did they not be re-elected.

Look around your court houses, city halls, police and fire stations and see the fixtures—there for years and just playing politics to continue there. Look at the amount of help they have in order that they can tend to their political fences while the help tries to take care of the public—and tax money pays the bill.

"One person in each eleven who works for a living gets his pay from some form of taxes, and one dollar out of each seven tax dollars goes to pay wages."

When the people in their disgust with political affairs ousted one of these office holders, the ousted one uses the public's time, material and help to publish a lengthy review of all his accomplishments while in office. This excuse screen is but an apology or an excuse, and when a man gets to making excuses he can easily make mistakes.

After he is out of office he becomes a "lame duck" but is still in with the gang, and they immediately get busy and create a job for him. Try as you will, you don't get rid of him, as long as the old order holds office.

Housecleaning consists of going from cellar to attic and throwing out old obsolete and useless fixtures.

Would not a thorough housecleaning in public offices—which are supported by tax money—be in order? Some fixtures have been in so long they are real antiques.

## City Government High, New Statistics Reveal

The cost of government of the 250 cities of 30,000 or more in the United States in 1929 was \$43.68 per capita and exceeded the cost of government of the states by 68.7 per cent and was only slightly smaller than the corresponding figure for the federal government, the bureau of the census stated July 10 in a summary of financial statistics of the cities for the year.

All but eight of the cities had revenues sufficient to meet all operating expenses and interest, and eighty-seven received enough to care for all outlays and to reduce their debts, the bureau said.

**Indebtedness Shown.** The net indebtedness (funded or fixed debt less sinking fund assets) of the 250 cities amounted to \$6,130,289, 576, or \$138.32 per capita, in 1929, this being an increase of 5.2 per cent over that for 1928. The per capita net debt of 146 cities covered by the various census reports was \$144.33 in 1929, \$139.63 in 1928, \$80.75 in 1917, and \$44.71 in 1903.

While there was an increase of \$304,017,033 in net debt for the 250 cities as a whole, 107 individual cities showed a decrease in their net indebtedness.

A comparison of the aggregate increase in net indebtedness with the total payments for outlays discloses the fact that 31.2 per cent of the permanent improvement for 1929 were financed from proceeds of bond issues. For 1929 the assessed valuation of property subject to ad valorem taxation for city purposes was \$80,402,335,256 for the 250 cities having over 30,000 population; and the amount of taxes levied for the city government was \$2,208,763,880, or \$49.84 per capita.

## Booze Has A Buddy

### Graft Is Boon Companion of Illicit Activity

"Booze has a Buddy," says Hearst's Herald Examiner, which records truths that deserve repetition in a taxpayer's paper, and some of these truths are:

"The boon companion of any illicit activity is GRAFT."

"Any man who attempted to open a speakeasy without knowing the ropes would be the laughing stock of the police and the bootleggers."

"The speakeasy proprietor knows before he opens the door how much of his profit he will keep and how much he will give up."

"The problem of honesty in government and law enforcement goes far beyond the mere matter of indicting a few policemen or public officers and putting a few bootleggers in jail."

"We can insist while we are considering the biggest problem, that those two inseparable buddies—the Law Breaker and the Graftier—do not walk openly arm and arm about the streets."

In Lake county, Ill., the militant organized taxpayers are objecting to paying taxes to be used for the salaries of officials who suffer the law breaker and grafter to roam the highways under a system of petty fines, which really amounts to a license system.

Many fancy that heavy fines would eventually end law violations and then there could be a reduction in the costs of policing the weak woman and booze rackets.

When a community finds it so hard to get sufficient money to keep the poor from starving, the taxpayers believe the rackets should end when so much money must be collected in taxes for policing the community.

Militant taxpayers will not suffer to continue any system in which the law violator pays tribute to those who are paid by the taxpayers to maintain law and order; no public official can serve two masters, especially if one is a law breaker or grafter.

## MORATORIA FOR ALL—WHY NOT?

In communicating with President Hoover, Lake county taxpayers suggested some sort of conference to provide a moratorium for Americans who are hard pressed and these communications were widespread with the result that the reaction has been very interesting.

Senators want a moratorium on wheat sales and cotton liquidation. Others seek a moratorium on rents, and installment contracts.

Former Solicitor General and now Congressman Beck of Philadelphia says, "We have been slowly strangling the prosperity of America by excessive taxation, and the taxpayers of this generation are also entitled to a moratorium in the payment of the national debt." So say we all and we add Americans want a moratorium on the internationalists' propaganda which seeks to entangle the United States with European politics and policies to the end that Americans shall pay the national war debts of innumerable European nations.

## WARNS G. O. P. AGAINST WASTE OF TAX MONEY

### Senator Searcy Assails Wasteful, Grafting Tax Spenders

The Republican party will be defeated unless it solves the taxation problems, was the keynote at the W. J. Stratton picnic, July 11.

State Senator E. J. Searcy of Springfield boldly, plainly, and constructively broadcast just what is in the head of the average taxpayer when he said, "In times like these party organization will be so much piffle unless that organization is frankly and honestly responsive to the voters and their human interests."

**Assails Tax Burdens.** "The economic issue will be vital because men and women, now holders of modest parcels of property, will demand to know whether they will be permitted to retain the little that is theirs or watch it go the way of foreclosure and the auctioneer's hammer, chiefly because of the confiscatory tax burden brought about by wasteful and grafting tax spenders."

In strange contrast to the Stratton picnic was one recently held by Lake county politicians who were popularly credited with then framing up the legislation which cuts down the representation of the Lake Shore townships in the county board and places the care of the poor in the townships in lieu of the county.

No way was provided for the townships to immediately undertake such a great financial burden and consequently the taxpayers are up in arms with a battle cry to substitute three county commissioners for the thirty-three supervisors and the human interests of the poor are commanding an honest response of the voters who do not propose to suffer "boonhead" politicians to wreak misery upon the unfortunate.

Numerous politicians are marked for a ride up "salt creek" which the Springfield senator is pointing out to the wise and otherwise in the hope of avoiding a political shipwreck in that salt creek from the headwaters of which no short-sighted politicians ever return.

## DECLARES STOLEN OR SQUANDERED FUNDS BE RECOVERED

### Drastic Action in County Will Produce Results, Taxpayers Say

The Chicago Daily News says it "has insisted for years that public money stolen or squandered or knowingly misappropriated by faithless officials or by other persons in places of public employment can and ought to be recovered by suitable legal proceedings, regardless of whether effective criminal prosecution is possible."

In Lake county organized taxpayers have been trying to practice what the News preaches by demanding a full municipal audit and action to recover anything spent contrary to law; however, there is manifest delay and opposition to any real audits because the honest officials dislike to bring mental distress upon the family of a faithless official.

The taxpayers are said to be withholding comment on a situation which is so well known by the Indian system of communication. However, whatever belongs to the taxpayers is likely to be recovered, regardless of all opposition from all sources.

## Carlstrom Ruling Darkens Paupers' Plight in Lake Co.

### Paddock Legislation Dims Hopes of Needy in 8 Counties

The Lake County Taxpayers' News on July 9 started unending county discussion with its exclusive story about the idea of substituting three county commissioners for the thirty-three supervisors because of the plight of the poor who seem to be left helpless by the legislation which did not provide means for their care pending the change from county to township jurisdiction.

The News could not find a way for providing financially for the poor re-

## Waukegan Proposes Appropriations Cut

The report is that Waukegan is proposing to slash its annual appropriation bill at least \$100,000. However, the total is reported at \$1,575,262, which will make the taxpayers go some to meet the views of their public servants. Libertyville is reported to be 50 per cent self sustaining, while in Waukegan they are trying to hunt bargains to retain three new policemen who are the subject of objections by the militant taxpayers.

Lake Forest is cutting its school building levy down from \$20,000 to \$5,000 and it already has \$100,000 available because it accumulates a building fund and does not issue bonds or issue anticipation warrants, which usually increase taxation about one-third.

Its school rate is 69 cents per \$100 valuation of assessed property; however, Fox Lake No. 33 has a rate of 48 cents and No. 37, 58c, the lowest in Lake county.

Lake Villa's rate is 67 cents. Highland Park, Deerfield, Highland and North Chicago tie at the highest rate, which is \$2, and Waukegan is only a nose behind at \$1.99.

Waukegan bonds its school building to the limit and issues anticipation warrants without restraint and the net results of the cash system of the millionaires at Lake Forest in comparison with Waukegan's political control is that the Shields township section rate is \$443 and Waukegan's \$6.27, the highest in the county, excepting a small part of North Chicago, where the rate is \$6.35.

## What's Debt Got to Do With Peace?

### "Bugs" Baer Keeps Tab on Roving Diplomats

Vice-President Curtis says: "Four Illinoisans saved the United States"—Lincoln, Douglas, Logan and Grant. He added: "We want peace with honor—peace which will bring us into no entangling alliances with other nations." Many taxpayers are wondering if President Hoover got the point about entangling alliances in the moratorium's aftermath.

The Chicago Daily Tribune's headline is, "Hoover Strives to Reduce Arms as Asset in 1932. Willing to Cut Debts to Win Europe Over," and "British Launch Scheme to Cut Debts by 50 Per Cent; Plan World Parley to Aid Weak Nations."

The Herald Examiner's headline is, "Reveal Hoover Planned War Debt Slash."

"Fifteen or twenty stories have leaked in the past few weeks and we are determined to find out where they came from," is statement credited to President Hoover's secretary.

The President claimed he has always been against further debt revisions and consequently a normal minded taxpayer cannot decide whether the debt cancellation propaganda wires are crossed or the leaks are reaching to the U. S. treasury; any way, in commenting on "the first fruit of the 'Hooverism,'" "Bugs" Baer in the Herald Examiner says:

"We are now keeping track of roving diplomats in Europe same as we did with our 1918 soldiers. We mark 'em by pins on the map. And some of the heads on those pins are very small."

However, the taxpayers are wondering just how much some of those pins are going to stick the American income taxpayer when the French get through entangling Uncle Sam for an angle in the little plays to amuse alien diplomacy.

## Earning Power of Nation Has Declined Says Gov. Emmerson

### Says Government Cost Is 11.9% on Every Dollar That Is Earned

Governor Emmerson is the authority for the assertion that the cost of government is 11.9 per cent of every dollar earned; 34.4 per cent of the nation's taxes go to the United States government, 15.3 per cent to the various states, and 48.3 per cent to the lesser branches of government, such as cities, counties, school and park districts. The governor says, "As the income and the earning power of the nation has declined, these governmental debts and expenses have become a national problem. Illinois is only one of the many states now seeking a solution."

Why the governor does not talk turkey to Chicago, which is causing the greatest Illinois problem, cannot be understood by the down-state farming counties which must endure greater

## "LAME DUCKS" LEECH PUBLIC FUNDS IN THE GUISE OF SALARIES

### A Cross-Roads Philosopher Razzes Political Parasite

A political "Lame Duck" is a defeated politician, who through friendship, party affiliation, or by having "something on" an officeholder, strong arms himself into an appointive job.

These birds have been increasing rapidly the past few years and have become a nuisance.

There is no open season for them; but they are gun-shy anyway. City halls, court houses, and state and federal buildings are infested with them.

They exist upon money paid in by the taxpayers; their usefulness is practically nil because most of them are business failures before they entered politics. They are worse political officials than business men, so instead of going to the poor farm, they leech public funds in the guise of salaries instead of charity.

They are as proud of their self-valued abilities as a peacock of his tail but outside of strutting them before the public, neither can be used to produce useful results. They are very fond of soft jobs and rich salaries and upon such a diet they become lazy, independent and boastful. In their own opinion they are indispensable.

In case any one of them is disturbed on the nest into which it has settled it will squawk and stir up a commotion to divert attention from itself; all the other ducks will gather around and hiss at the disturber especially if it is a taxpayer group.

While fattening at the public crib, these birds often have daydreams in which they fancy they can fly high and far from the council to the county, from the county to the state or congress; however, when organized militant taxpayers are pot hunting they usually wing such ducks, especially if the duck hopes to audit county accounts or enter congress.

It usually takes death to get rid of them, but usually they live and leech the public to a ripe old age. In case one dies, there are usually many defeated politicians ready to sacrifice themselves for their community.

In the words of a cross roads philosopher, they are patriots willing to give the taxpayers' pocketbook to the community and sacrifice the taxpayers' property for their jobs.

## Upward Tax Trend Viewed With Alarm By Real Estate Boards

President Hoover has been asked by the United States Real Estate Boards to call a national tax conference to adjust the revenue system to more nearly meet the ability of the citizens to pay. These boards "viewed with alarm the steady upward trend in government costs and taxes."

The practical farmer contends that the only way to solve the current tax problem is to reduce the total taxes and that can be done only by reducing the expenditures of the various governments which now spend over \$13,000,000,000 yearly.

Unless new highways built are actually needed their construction does not cause any increase in the value of the property to offset the reduction in its value caused by the increase of the taxes and special assessments upon it.

Also unless new buildings are actually needed their construction merely results in government offices being moved to them from other buildings, and thereby depreciates the earning capacity and value of other buildings in the community.

Every increase in governmental expenditure causes bigger taxes upon realty, especially the small home, and increases rents and the cost of industrial production.

Attempts to shift taxes from realty to personal property in the end avail nothing unless the total taxation is reduced. The militant taxpayers in Lake county at Waukegan realized the truth and organized with the result that they defeated the combined efforts of the press, council, chamber of commerce, civic clubs and financiers to bond the community for around three quarters of a million dollars to provide a lake shore drive, a city hall and fire stations which were desired by all but beyond the means of a community which now finds itself badly bent with two large banks closed, but not yet broke, largely because of the battles of the far-seeing, small taxpayers who read the economic storm signals in time to save the community.

### CHRISTIAN SCIENCE CHURCHES

"Sacrament" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 12.

The Golden Text was, "Jesus saith unto them, My meat is to do the will of him that sent me, and to finish his work" (John 4:34).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "If ye be reproached for the name of Christ, happy are ye; for the spirit of glory and of God resteth upon you: on their part he is evil spoken of, but on your part he is glorified" (1 Peter 4:14).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "To suppose that persecution for righteousness' sake belongs to the past, and that Christianity-to-day is at peace with the world because it is honored by sects and societies, is to mistake the very nature of religion. Error repeats itself. The trials encountered by prophet, disciple, and apostle, of whom the world was not worthy, await, in some form, every pioneer of truth" (p. 29).

## Taxpayers' Questions

(Continued from page three)

What do \$25,000 additional special assessment bonds for unnecessary or detrimental electric lights in a cemetery district really amount to when perhaps \$500,000 is shy on special assessment payment in a prosperous city in Lake county where the banks never close on the taxpayers' bank roll?

Why should property owners be too critical of a Capone type racket if the dead can be made to see the light, even when the politician cannot until next election?

Which taxpayer will figure out the difference in costs between thirty-three supervisors and three county commissioners and the savings in discharging all the township organization including supervisors, clerk, and assessor in all the many townships?

What will the recovery harvest be for taxpayers when complete, honest public audits lift the lid off?

If a municipal officer sues his city for services after his term has expired, why cannot the taxpayers square accounts with demand for the return of public money ordered spent by such an official for his many Chicago railroad tickets and for the gas, tires, and repairs on his family auto?

Simply because a municipal employee gets upon a civil service list, are the taxpayers obligated for his salary forever, especially if his superior officer happens to have the time and ability to perform all the duties of the job of such an employee who incidentally dwells outside the district of such taxpayers?

If a municipal technical official has been able to find time to visit the hotel and room of a public improvements list folder at bidding time, why should taxpayers worry if his position is the mislabeled after the voters have disavowed the commission which first employed such an official?

When will tax consuming public servants appreciate fully that the tax producers pay their taxes for the mutual benefit of all persons rather than for the private gain of politicians and their appointees?

How much longer are the water users going to suffer the retention, at the expense of the payroll, of those who allowed work to be done contrary to the plans and specifications, and is the water board to continue to be composed of some who could not make a success of their own affairs? Isn't it time the water board, as at present formed as to personnel, be changed and let those who would at least try to do something to better conditions in the water department?

Is the latest street lighting rate talked about going to turn into something like the water rates did a couple of years ago? And what are the latest figures on the electric current debts?

What June 1st is it going to be that the Waukegan Park district ball park will be ready? Was the reason it isn't ready this past June 1st, that they have too much money to spend?

Can the recreation board give a valid excuse for not advertising for bids on the concession at the Lake front?

How many ex-officials' notes are in the treasury of the various tax-spenders' funds?

The county board says it is short of funds, so it cannot do much for the needy, but at the same time was not the board of review members' pay raised \$1 per day? Is that an indication of a shortage of funds to take care of the needy?

The Illinois Republican Council Bulletin is asking questions, among them the following:

"If Europe should decide to pay back the \$11,000,000,000 she now owes us and should actually send over the currency to liquidate her debts to us, would it or would it not lift the depression now prostrating American trade and industry?"

"When the government at Washington, in control of the Democratic party during the period of the World War, was handing over to Europe billions of American money, did it ever stop to consider that that money might be needed here again some day and that the loss of it would eventually destroy the prosperity of the American people?"

"The United States is always a popular field for the propagandists of other nations. Would it not be well for us to keep this in mind while listening to the views of Europeans who are now telling us what we must do to help them out of the sorry plight which has followed the World War?"

"Will the Republican party in Illinois obey the wishes and desires of the people? If so, the leaders, who are temporarily in power, must not circumvent the right of the rank and file of the Republican party to express their will on vital issues of the hour."

"Senator Lewis was the Democratic whip of the Senate during the administration of Woodrow Wilson, when \$24,000,000,000 of the American taxpayers' money was sent to the four corners of the earth. Should not Senator Lewis now undertake the job of bringing the money still owing to the American people?"

## CHANNEL LAKE COUNTRY CLUB NEWS

The first dance of the season, which was held last Saturday night, was pronounced a great success. About seventy-five members and guests participated in the affair, and were loathe to leave when the last strains of "Home, Sweet Home" were played. Delightful refreshments were served by the committee in charge—Mrs. Carl Galtier, chairman, and Mrs. Walter Stevens, Miss Mildred Kresse and Miss Martha Pfleger. The next dance was announced for Saturday, August 9.

The card party Tuesday proved to be the largest so far this season, forty-one participants in the appetizing luncheon provided by the committee in charge, composed of Mesdames Grice, Johnson, Rosing, and Swanson. In the card game which followed, the prizes were awarded to Mrs. Tankersley, Mrs. Renz and Mrs. Grice.

The ladies' golf day Thursday morning is not bringing out as many members as the chairman, Mrs. Gray, would wish, but those who have attended have had such happy times, and the sociable luncheon which follows the games have been delightful affairs. Last week's game, a "flag contest," was won by Mrs. Ernest Brook, and we are proud to announce that Mrs. Brook made a "birdie" on one of the holes. This week's game is "approaching and putting."

Those who are not attending the many affairs going on at the club are missing some splendid times, and it behooves each one to make a special effort to be there.

Mr. and Mrs. George Arnold, of Hubbard Woods, were the guests of Mrs. J. H. Sandell Wednesday, much of the day being spent on the golf course.

Mrs. Charles W. Laflin attended a houseparty on Lake Geneva as the guest of Mrs. Thomas J. Scott, Monday and Tuesday of this week.

## Europe's Moans Smother Cry of Our Taxpayers

(Continued from page three)

How long are our senators, congressmen and federal executives going to suffer the American internationalists, debt cancellations, tariff tinkers, pacifists, communists, and socialists to mean so loud over the impending death of European civilization that the American taxpayers cannot be heard in the American legislative bodies which should now be in unlimited session in serious consideration of what you describe in these words:

"We cannot let the situation of poverty, unemployment, perversion of the banking system by the money masters, the bankruptcy of farmers and degrading the credit of all businesses in America, be lost to view nor the responsibility of such condition be masked by some incidental economic issue which only a few understand. The great American multitude believe that the tariff issue is a mere beating of ancient tom-toms to smother something more acute but which is being withheld from the public under the age-old cry of 'tariff'."

You know that this communication comes from the banner Republican county—Lake—in the state of Illinois and that 99 per cent of the organized taxpayers are lifelong Republicans and consequently it means something when militant taxpayers protest against the current policy of saving Europe while the United States sinks during a presidential nomination moratorium which is concurrent with the European debts moratorium.

The average American taxpayer is not going to wait for the patriot box to register his convictions on American officials whose resignations will shortly be demanded unless they focus their eyes on the United States and withdraw them from Europe. Absolute tearlessness and candor must mark the conduct of American domestic affairs watch come first, last, and every minute with average American taxpayers, who alone may be rather helpless, but united they are all-powerful.

You already have copies of three communications sent to President Hoover from some of your own organized militant taxpayers who are mostly Republicans, rendering thanks now to a Democratic senator who alone so far has recorded the wish and the will of the humble small taxpayers who want the American Constitution respected by their President, and public affairs conducted upon conventional lines rather than correspondence school methods with senators and congressmen, when in effect a quarter of a billion dollars additional taxation is being levied upon the American people, who are being forced by dictatorial methods to relieve German industry or its taxation overseas and place most of it upon staggering American factories and their diminishing force of artisans.

You note we suggested moratoria for Americans and now Washington is being swamped with such requests. You note that we suggest relief for American banks from the depreciation effects resulting from the common acts of everybody.

Lake county closed banks are the immediate concern of innumerable taxpayers because many of them have their private funds impounded along with the deposits of tax funds which, if not soon available, must cause great distress.

Cannot some means be found by the public authorities to aid these banks and release the people's money in order that business may sustain our existence?

These questions are far more important to us here than providing great credits to foreigners who should be left to find their own salvation.

Why not provide legislation for long term credits for reality in America and thaw out the frozen assets of many honest commercial banks which followed the conventional rules of good times only to be penalized in bad times for which all are responsible?

We trust you will appreciate how thankful taxpayers are when a great senator makes it his business to look for Americans rather than Europeans.

Yours truly,  
Waukegan Taxpayers Assn.,  
By R. H. Stripe, President.

## Wilmot Pirates Defeat the Fox River Club 17-1

The Wilmot Pirates defeated the Fox River club Sunday at the Wilmot park, 17-1. Norm Richter was in his usual good form and allowed only five scattered hits. The Pirate crew hampered the visiting hunter for twenty-two safe wallops, including a home run by Aaron Smith, a triple by George Richter, and doubles by Oetting, Shubert, Frank, Smith, Norm Richter, George Richter, and H. Frank. The Pirates scored in every inning except the second. Norm Richter struck out twelve men and Davis struck out two.

Next Sunday the Pirates travel to Salem.

## \$50,000.00 IDEA WANTED

We select inventions for large concerns throughout the country to manufacture and sell, and need several thousand more new ideas at once. Many have offered cash payments for ideas not invented yet: \$5,000, \$10,000, \$20,000, \$50,000, etc. We will be glad to consider any new idea for cash sale or royalty. We charge 5 percent commission when sold. Little inventions like the shoe string tip, or the rough surface on the match box, usually make the most money. Thousands and thousands have made fortunes with their inventions. Every machine and every article manufactured is an invention; and besides, there are four other large classes of inventions. Walter Turner made 400 inventions, although one alone was worth \$25,000,000 (twenty-five million dollars). To get ideas faster, we are going to teach boys and girls in every line of work every possible way to invent. Education is not necessary—Did it require education to think of doubling the heels and toes of stockings? That was an extremely good invention. This may be your only chance to learn the most honorable and most highly paid profession in the world. Where else could you learn it without paying several hundred dollars? We will teach you free if you will send one dollar for postage, printing, mailing, etc.

Our nation has plenty of idle men, idle money, and idle machinery. Send in your ideas at once and let's start the wheels to turning.

taxes while Chicago withholds her fair contribution to state expenses. Chicago sowed in a whirlwind of extravagances and is now reaping a famine of taxes which are to be passed on to children yet unborn. The object lesson will never be appreciated, and few will grasp the basic conditions which cause the current bankruptcy of America's second city. Chicago is the melting pot of the globe, the greatest part of the inhabitants of which appear to remain children from the cradle to the grave. The grafting contractors in league with selfish politicians, propose costly improvements which are voted for in bonds which eventually must be redeemed in good coin.

The half thinking voters approve any proposition to increase public payrolls, and raise the pay of policemen, firemen, clerks, postmen and innumerable public servants, but in the long run the wage-earners pay the bill without really knowing when nor how; but they do—in rents, prices of food-stuffs and clothing, and everything the masses consume.

In good times the process is painless, but in hard times the wage-earners feel the cost of foolish voting; however, they seldom appreciate just what keeps up the high cost of low living.

Why so many voters are indifferent or ignorant nobody can learn, and probably never will. Half of the voters seldom vote and the other half act too much like sheep following a leader—usually a self-seeking politician or a press which feathers its own nest intelligently while the suckers ignorantly mix their own economic poison.

In the land of the free, a hue and cry would be raised if anybody seriously proposed that voting on bond issues and propositions involving increased taxes be restricted to those who pay taxes directly. The net result is that politicians who think 24 hours per day obtain leave and license to run up all sorts of public bills for the half-witted public to pay in good and hard times.

A governor may lecture, but will human nature improve in a land where everybody's business is nobody's business when it comes to community affairs involving taxation and the economic expenditure of the same?

In the farming districts there appears a little hope because township taxpayers' organizations are being formed to study and act in tax matters; however, the process seems slow and leaders few.

The Lake County Taxpayers News is one of not exceeding a half a dozen journals devoted to tax matters and it remains to be seen how wide a circulation it can secure in a wealthy, industrial, farming and residential county in the most noted middle western state of our Union, where ignorance has appeared to be bliss in matters of taxation and public expenditures.

lief during next winter and this situation is now confirmed by the attorney general who is quoted: "I know of no way of providing funds by the townships for the relief and support of paupers until the tax levy next April." The legislative "boner" seems destined to turn Lake county upside down and inside out politically. The News-Sun already suggests serious complications which are unmentioned; however, it believes the power of the sheriff, county treasurer, etc., would be increased, but it does not state how or when if three commissioners are substituted for thirty-three supervisors, and it gives no figures to confirm its conclusion that three commissioners would not be cheaper. Regardless of comparative costs, some means must be found to save starving people during next winter. If a change from townships to three commissioners will provide the only available governmental machinery to finance the situation, such a change seems destined to receive very serious consideration. Farmers are withholding an opinion, pending the publication of the comparative costs. Senator Paddock's legislation affects the following counties: Lake, Kane, Madison, Peoria, St. Clair, Sangamon, Will and Winnebago. Sixteen out of 101 counties do

not have the township organization. The Waukegan Times says that the taxpayers may urge legislation next session to change from township to commissioners; however, the Times is not yet fully informed, because there is now available a statute under which the people may petition the county board for an election on the proposition.

Nothing has ever caused so much discussion in Lake county as the current "boner" legislative hole into which affairs are cast.

## How to play Bridge AUCTION or CONTRACT

by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

Copyright, 1930, by Hoyle, Jr.

### ARTICLE No. 19

There is undoubtedly a growing desire among auction players to try out the game of Contract Bridge, and the tendency seems to warrant the conclusion that Contract is going to displace Auction. The latter game is still ahead in popularity, however, and it may be many a day before it takes a back seat. They are also trying out Contract in England, and in that connection the following remarks of a well-known English writer are interesting and amusing:

"No one yet knows how to play it—neither the Clubman, nor the pundits (scholars), nor the Portland Club, nor the newspaper writers.

"Everyone reacts to the new order in conformity with their constitutions. The clubman has started to grumble, the pundit has started to instruct, the

Portland Club has started to legislate, and the newspaper critics, who were lately claiming the honour of keeping Contract out, are now claiming the honour of having introduced it. All of which presents a merry and vivacious spectacle."

The Portland Club referred to in the quotation is the London Club that frames the English Laws of Auction, thus corresponding to The Whist Club of New York in this country.

Here is a very instructive hand. All of the cards are given and the play of the first two tricks. On the third trick the declarer must make the right play or he cannot go game. It is a play that comes up very frequently and should be studied very carefully until the reader is sure that the situation is thoroughly understood.

### Example Hand

Hearts—J, 8, 2  
Clubs—K, Q, 10, 3  
Diamonds—K, 6, 4, 3  
Spades—9, 2

Hearts—A, K, Q, 9, 7

Spades—8, 7, 5, 4, 3

Hearts—10, 6, 3

Diamonds—10, 9, 8, 5  
Spades—6

Hearts—5, 4  
Clubs—A, 5, 4  
Diamonds—A, 7, 2  
Spades—A, K, Q, J, 10

Spades are trumps and Z is playing the hand. A has led the king and queen of hearts and has thus won the first two tricks. On his lead of the ace of hearts at trick three, what is Z's correct play? Figure out the hand and decide what you would do before you read the solution that follows:

**Solution:** Z's proper play is the discard of a low diamond. If he makes the mistake of trumping the third trick, he cannot go game for A will have one more trump than he and, when he gets

in the lead, will thus be able to make his heart tricks. On the other hand, if Z discards a diamond at trick three, he is sure to score game. If A continues hearts, Z can trump in Y's hand with the nine of spades, lead trumps and the rest of his hand is good. In the same way the lead of any of the other three suits will give Z the lead and the chance to lead trumps. Note this hand carefully and don't trump a trick unless you are sure it's the winning play to do so.

### Solution to Problem No. 13

Spades are trumps and Z is in the lead. How can Y Z make five tricks against any defense?

**Solution:** Z should lead the ace of spades and all follow suit, but B has the choice of two plays: (a) he can play the four of spades and, if so, can be forced to win the third trick or (b) he can play the seven of spades and so be prepared to let A win the third trick.

(a) Suppose at trick one B plays the four of spades. At trick two Z should lead the queen of spades and Y should discard the trey of hearts. At trick three Z should play the trey of spades and B is forced in lead with the eight of spades. On this trick Y should discard the seven of hearts. B is thus forced in the lead and must lead diamonds. He can lead the ace and follow with a low diamond. If he makes this play, Y will win two diamond and one heart tricks. If B leads a low diamond, Z should play the seven of diamonds and A is forced to discard. He cannot discard a club or Z's clubs are good, so he is forced to discard a heart. Y should allow Z to win the trick. Z should now play the jack of clubs and a low club,

forcing A in the lead with the ten. On these tricks Y should discard two diamonds. A must now give Y a heart trick. Played in this way Y Z must win five of the eight tricks.

(b) Suppose, however, at trick one B plays the seven of spades and on trick two plays the eight of spades. On trick two Y must discard the seven of hearts (note this play for it is important). At trick three Z should play the trey of spades and A is thus forced in the lead. On this trick Y should discard the six of diamonds. A cannot lead the clubs or all of Z's clubs are good so is forced to lead hearts. If he plays the ace of hearts, Y should play the jack so that he can force A back in the lead on the third round of hearts (the reason for the play of the seven of hearts on trick two). If A plays a low heart, Y should play the jack and return the queen. A is thus forced to win the two heart tricks and must lead clubs to Z, who thus wins the balance of the tricks. In either case, therefore, Y Z must win five tricks against any defense.

## A STORY OF PRIVATE INITIATIVE AND LOCAL CAPITAL

### Chapter VIII

## BETTER LAMPS . . . BETTER LIGHT

**H**IDDEN AWAY on the inside pages of Chicago newspapers in the fall of 1879 were brief announcements of a new invention by Thomas Edison. By closing an electric switch he had caused a loop of carbonized thread to glow for 40 hours in a vacuum. He had created the incandescent lamp! Friends predicted that his invention would make it practical to light homes electrically. Critics ridiculed the idea—forecast failure.

The critics were wrong. Early the next year a lighting system using 115 of the new incandescent lamps was successfully installed on a large steamship. Soon wealthy homes began to supplement gas mantles with electric lights.

Improvements were made. The cotton-thread filament became a bamboo carbon filament. Then the carbon filament became a tungsten wire. The vacuum bulb became a gas-filled bulb. And the glass was "frosted" inside. Each change brought longer life, better light. The perfected lamps gave four times as much light as the original carbon lamp. "Mazda" became their trade-mark.

Rival lamps, of course, appeared on the market. Most of them were of the carbon type with low efficiency. Many of them came from foreign countries where cheap labor cut manufacturing costs. And while a few pennies were saved at the time lamps were purchased, less light was received for current consumed.

When the Public Service Company was organized in 1911, it recognized the superiority of Mazda lamps—recommended that customers use them exclusively. Many homes, however, continued to buy the cheaper foreign-

made lamps even though they were often fragile and burned out quickly.

Something had to be done. A solution was found in 1925. The Company made it easier to obtain high-quality lamps than low-grade lamps. It introduced a policy of "loaning" 60- and 100-watt Mazda lamps to customers without charge—of replacing them with new lamps when they burned out. It began to exchange other sizes of lamps at concessional prices—less than must be paid for inferior lamps. Lamp exchange counters were set up in all Public Service Stores. Lamp agencies were established in dozens of communities.

To assure uniform quality, a sampling of all lamps the Company purchases from manufacturers is submitted to the Electrical Testing Laboratories in New York City. This independent organization puts the lamps through careful performance tests. If they fall below prescribed standards, they are rejected.

When customers make lamp selections, the Company's representative asks about the fixtures for which they are intended—suggests the proper lamp to burn. And new lamp styles are demonstrated so customers may always light their homes in the most up-to-date way.

Thus the Public Service Company considers its obligation to residents of northern Illinois as extending beyond the running of reliable service to the customer's premises. It co-operates with him, showing him how to make the best use of the service he receives. It was this idea that inspired the Company's liberal lamp policy. It is constantly behind the Company's efforts to put superior lamps and appliances into every customer's home.

TWO DECADES IN THE SERVICE OF NORTHERN ILLINOIS

## AMUSEMENTS

PEACHES BROWNING  
COMING TO CHANNEL  
LAKE PAVILION SOON

Peaches Browning, famous Cinderella girl, will appear in person at the Channel Lake Pavilion for one night only, Wednesday, July 29, Manager Homer Winch of the pavilion announced this week.

Peaches is touring the United States. Her only appearance in this locality will be at the Channel Lake Pavilion, July 29, and this will be the only opportunity that local people will have of seeing the most publicized girl in America. She will sing, and also direct "Tweet" Hogan's orchestra.

In spite of the depression, the crowds at Channel Lake Pavilion are as large as those of former years, Manager Winch declares. "The crowd last Saturday night was larger by 500 than it was the same night a year ago," Winch said.

"Tweet" Hogan's famous band plays at the pavilion every night except Monday.

HOLLYWOOD MOVIE  
SCENES TRANSFORM  
TWIN L. BALLROOM

With the lake region as the scene, and thousands of local people as members of the cast in a mammoth cinema production, the ever popular Twin Lakes Ballroom will be transformed into a Hollywood movie studio when Prof. Cudla veteran director, takes charge of the filming of the picture the nights of August 3, 4, and 5.

On this occasion Director Cudla and his entire staff will convert the ballroom into the semblance of a movie studio with all lights shining, cameras grinding, grease paint, acting and all the interesting paraphernalia and detail that makes a studio. Patrons of the Twin Lakes Ballroom will enjoy their dancing as usual, all the lights and "shooting" equipment being ranged outside the railing which protects the dance floor. But in addition to dancing, they will see some of their movie favorites, see the staging of comedy stunts, hear the shouts of the director producing effects, hear the whirr of the cameras, and witness many many exciting incidents that are the ordinary routine of the movie studio. And everybody present on this

occasion will be "taken" by the movie camera.

## Films for Posterity.

Following the showing of the pictures at the ballroom a few days after they are made, the films will become the property of Manager (Carl E. Rademacher, and they will be loaned upon request to any community at any time.

Director Cudla and his "sharp-shooters" are abroad in the land and the sight of the camera men in Antioch may be expected at any time. Arrangements are being made with the fire department here for filming the famous local firefighters in action—perhaps a thrilling rescue from a make-believe burning building may become an interesting incident in the gigantic production which is to be built around a kidnapping plot.

Look out for the movie men!

Noted Orchestras  
Draw Throngs to  
Antioch Palace

Among the number of famous American dance orchestras engaged by Manager Mickey Rafferty for appearance at the Antioch Palace are Louis Panico, who with his band will entertain the Palace throngs of dancers tomorrow night, and Wayne King, who brings his orchestra here Saturday, July 25.

Through Manager Rafferty's policy of securing the best in music, the Palace is attaining a popularity that reaches far beyond the confines of the lake region, and almost any night in the week scores of patrons from Chicago and other more distant centers may be found enjoying themselves at Rafferty's Antioch Palace.

Phil Spilomly's band played recently at the Palace, and Duke Ellington and his world famous colored orchestra drew a crowd of 3,000 there Sunday night.

Bob Peary's Chicago Champions play at the Palace every night except Monday.

DANCING TEACHER TO  
HAVE CLASSES HERE

Miss Ellen, a dancing instructor of five years' experience, is planning to spend one day each week in Antioch, teaching ballet, toe, tap, acrobatic, and ballroom dancing. Miss Ellen is a graduate student of Miss Cecille Jean Barnett of the Chicago Musical College, and has taken post-graduate courses with the Julia Kullig school of Milwaukee and the Ned Wayburn Institute.

Friday, Miss Ellen plans to have a reception and demonstration of her pupils' ability at Guild hall, from 2 to 4 o'clock, to which the public is cordially invited. Anyone wishing information may enquire at this time without obligation.

All lessons will be accompanied on the piano by Miss Mary Voight, an accomplished musician.

GOING - GOING - GONE!

How exciting!

**AUCTION TODAY**

Twelve-Fifty — do I hear the fifteen?

— Early American Lustre Ware Poodle dog — no, I wouldn't care for that.

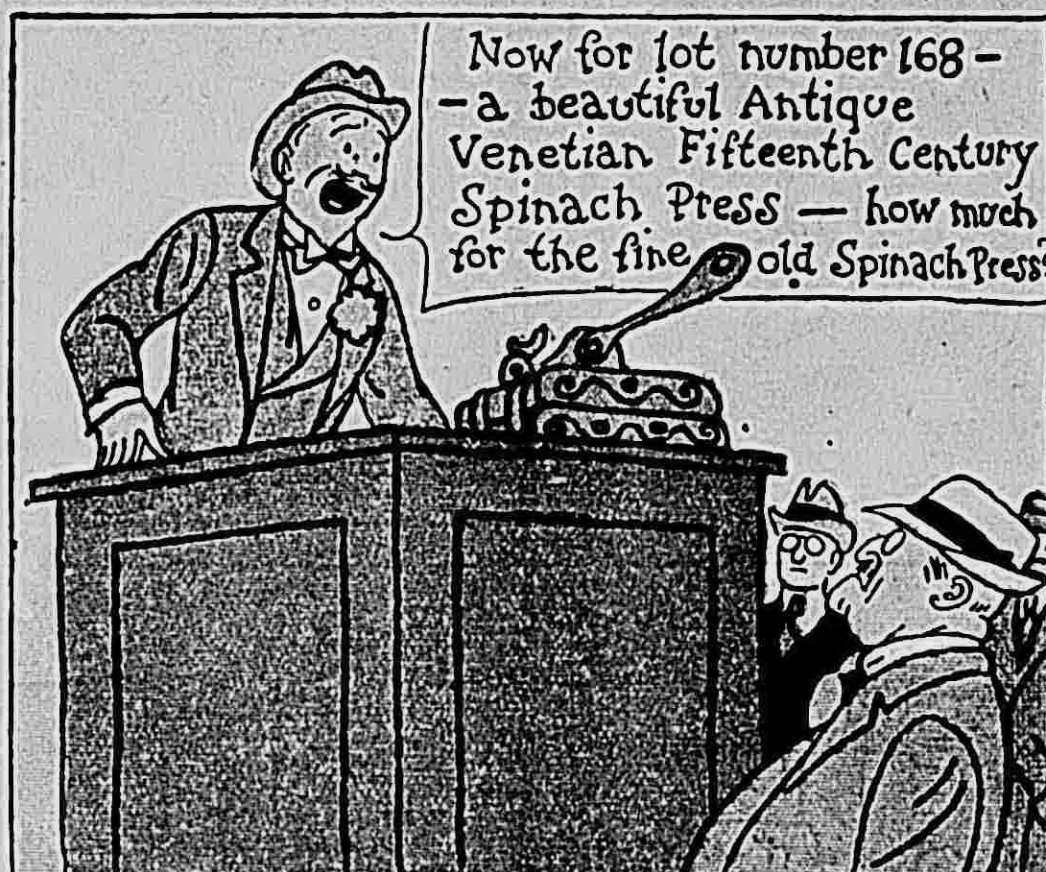

They do say some of these things you pick up for nothing are worth thousands!

I have here a very rare old Swiss Oxidized Ormolu Girandole! What am I bid?

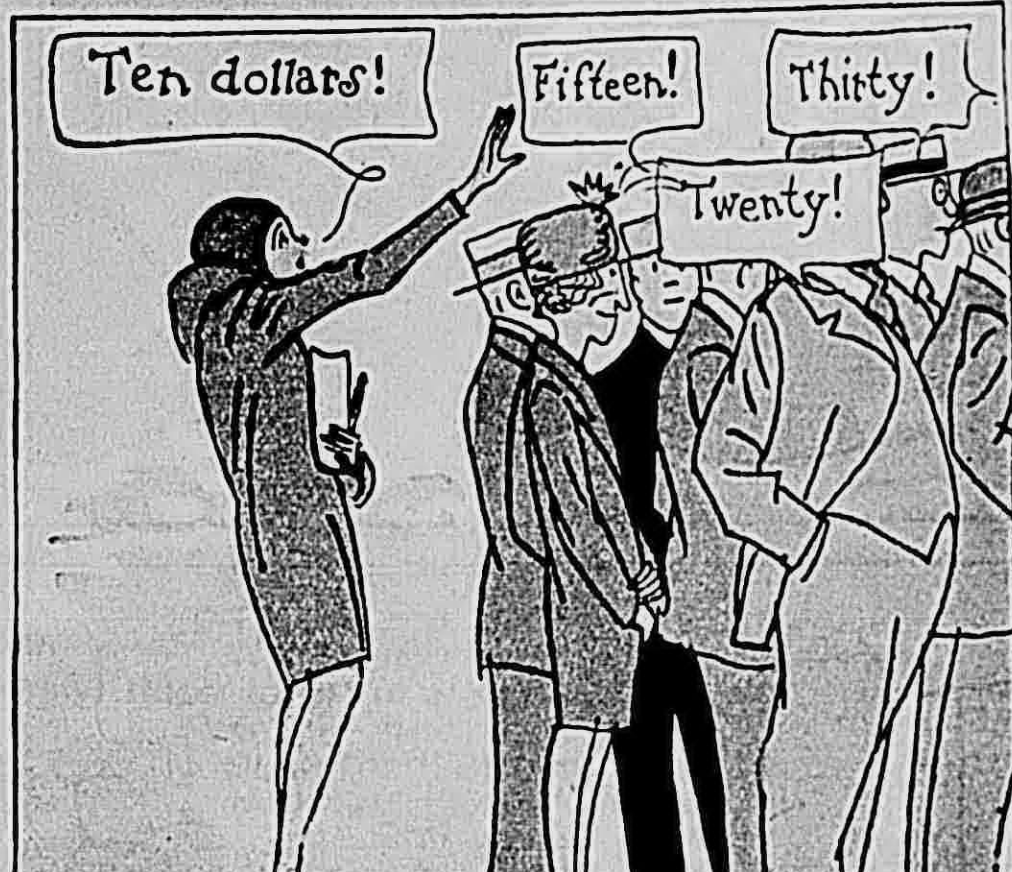

Heavens — I'll have to bid on something — this is driving me crazy!

Thirty-seven — thirty-seven — thirty-seven — are you bidding, Madam? You must raise your hand!

Now for lot number 168 — a beautiful Antique Venetian Fifteenth Century Spinach Press — how much for the fine old Spinach Press?

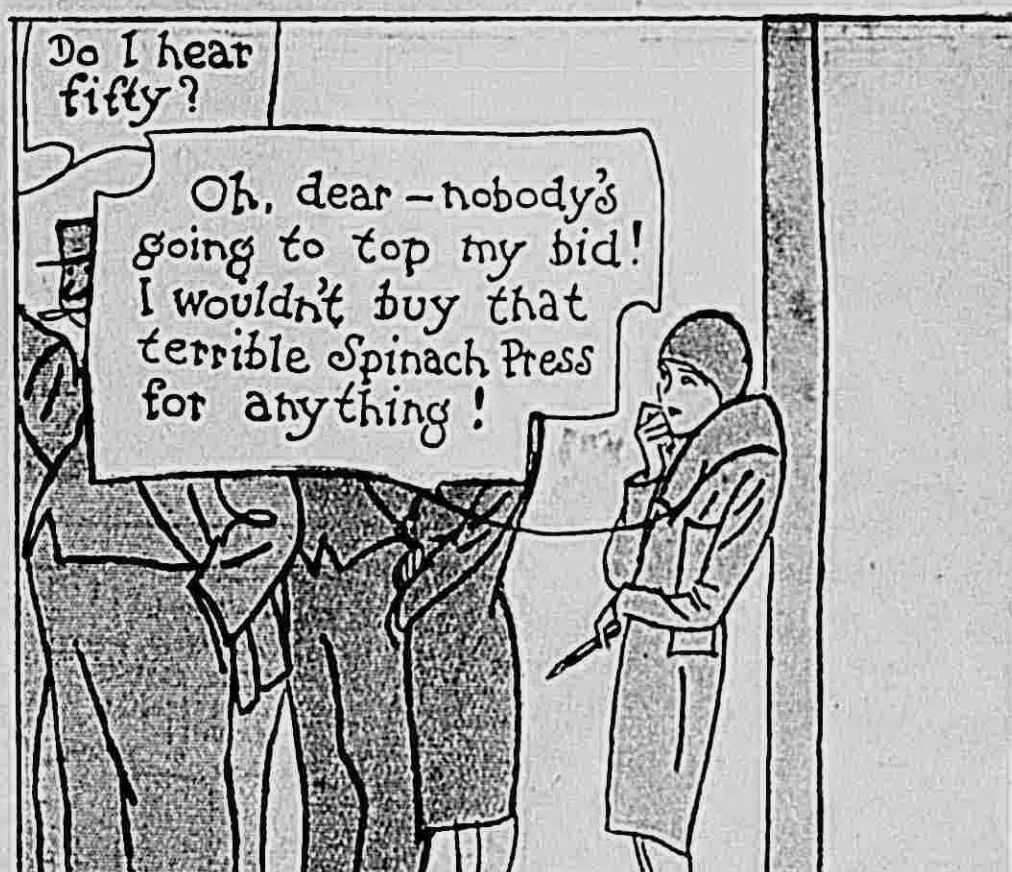

Ten dollars! Fifteen! Twenty! Thirty!

Forty!

Thank you, Miss-forty I am bid — forty — forty — once — twice — any more — raise your hands please!

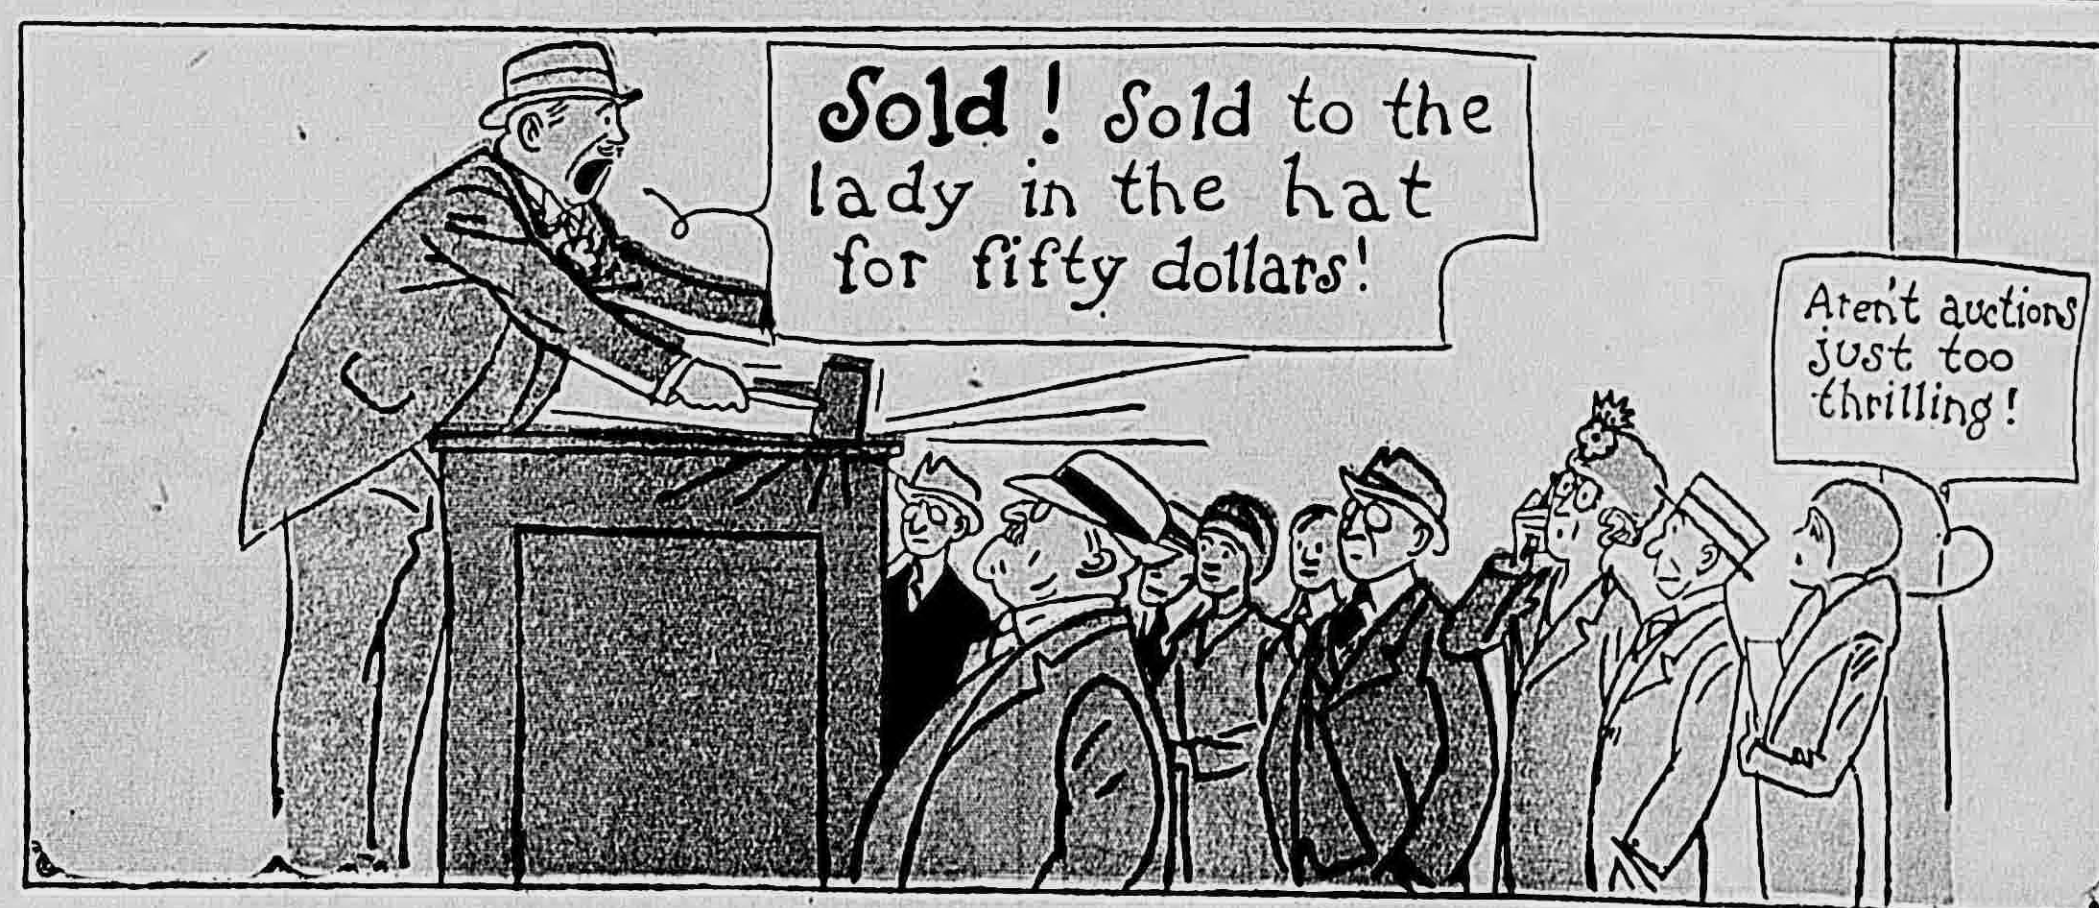

Do I hear fifty?

Oh, dear — nobody's going to top my bid! I wouldn't buy that terrible Spinach Press for anything!

A-a-a-ugh!

**Sold! Sold to the lady in the hat for fifty dollars!**

Aren't auctions just too thrilling!

VASTY TRACK!

HAVE A CIGAR, TOM!

DON'T CARE IF I DO.

HOW DO YOU LIKE THAT CIGAR?

U'M-M-?-?- PURTY FAIR.

THEY OUGHT TO BE GOOD.

HOW DO YOU LIKE 'EM?

OH FINE! THEY'RE TWO FOR A QUARTER.

OH!

THEN YOU MUST HAVE THE TWENTY CENT ONE.

# IN THE TORRES STRAITS

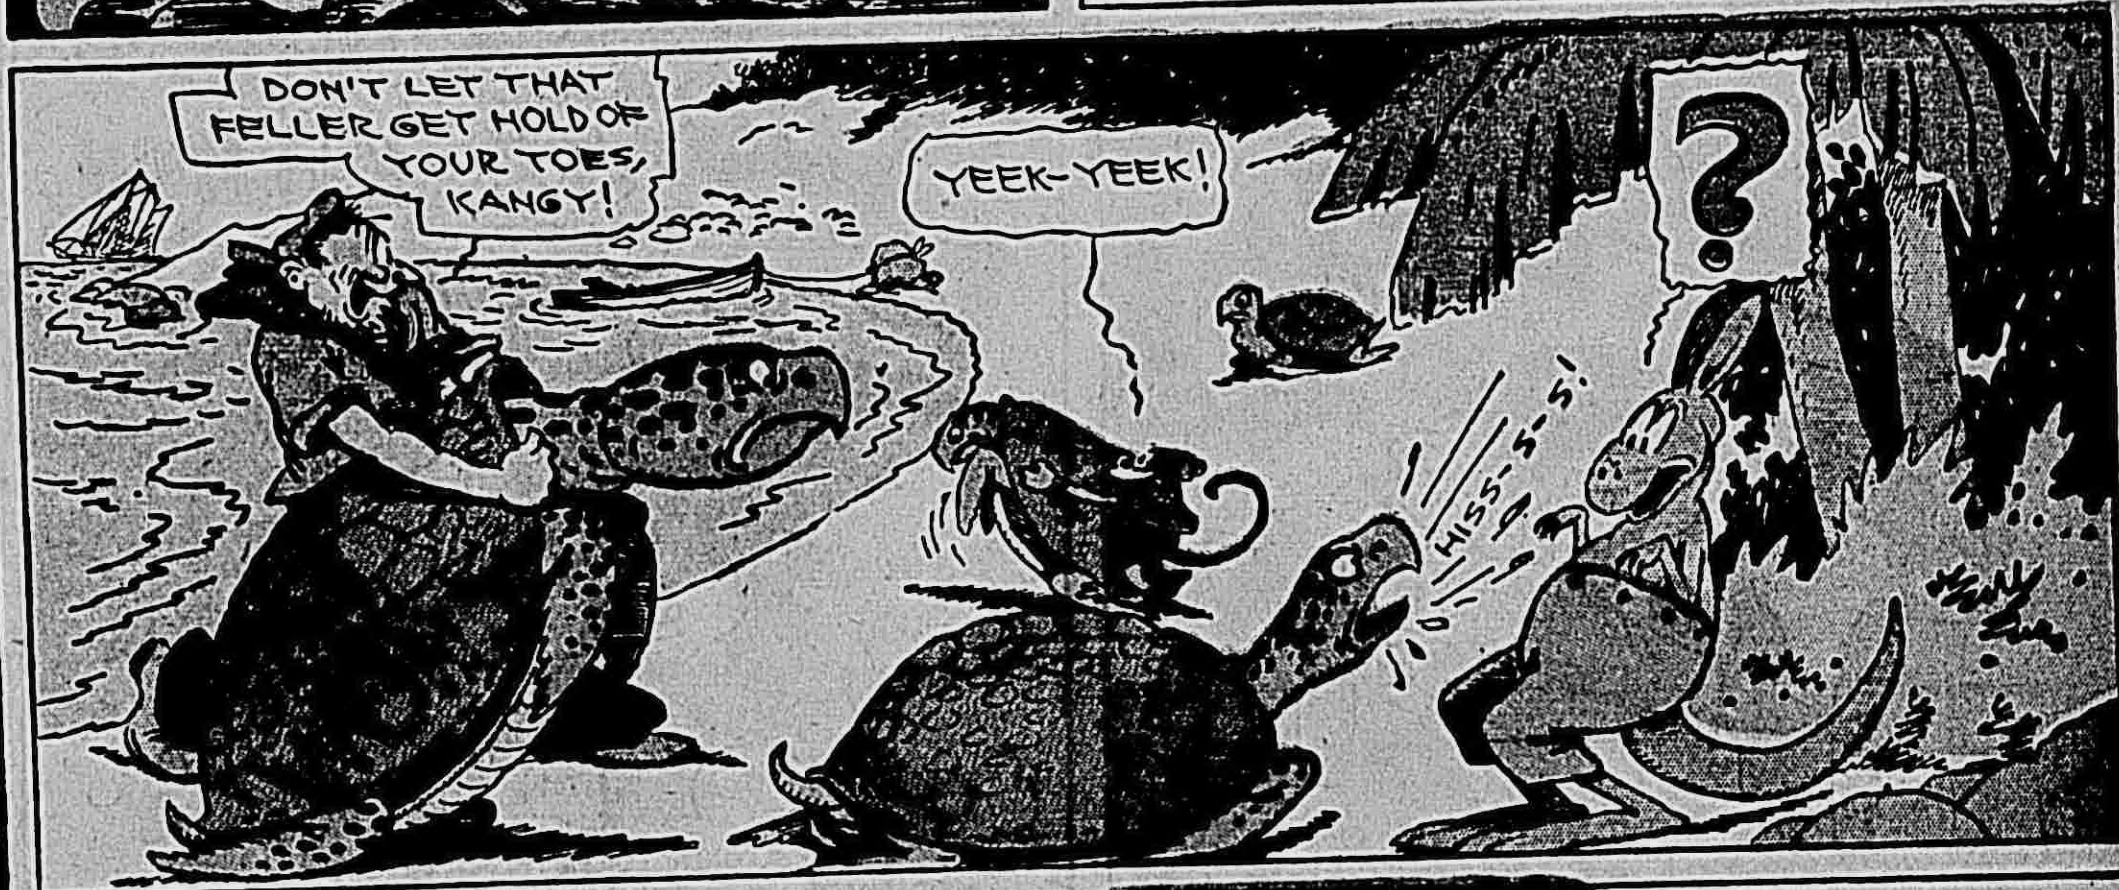

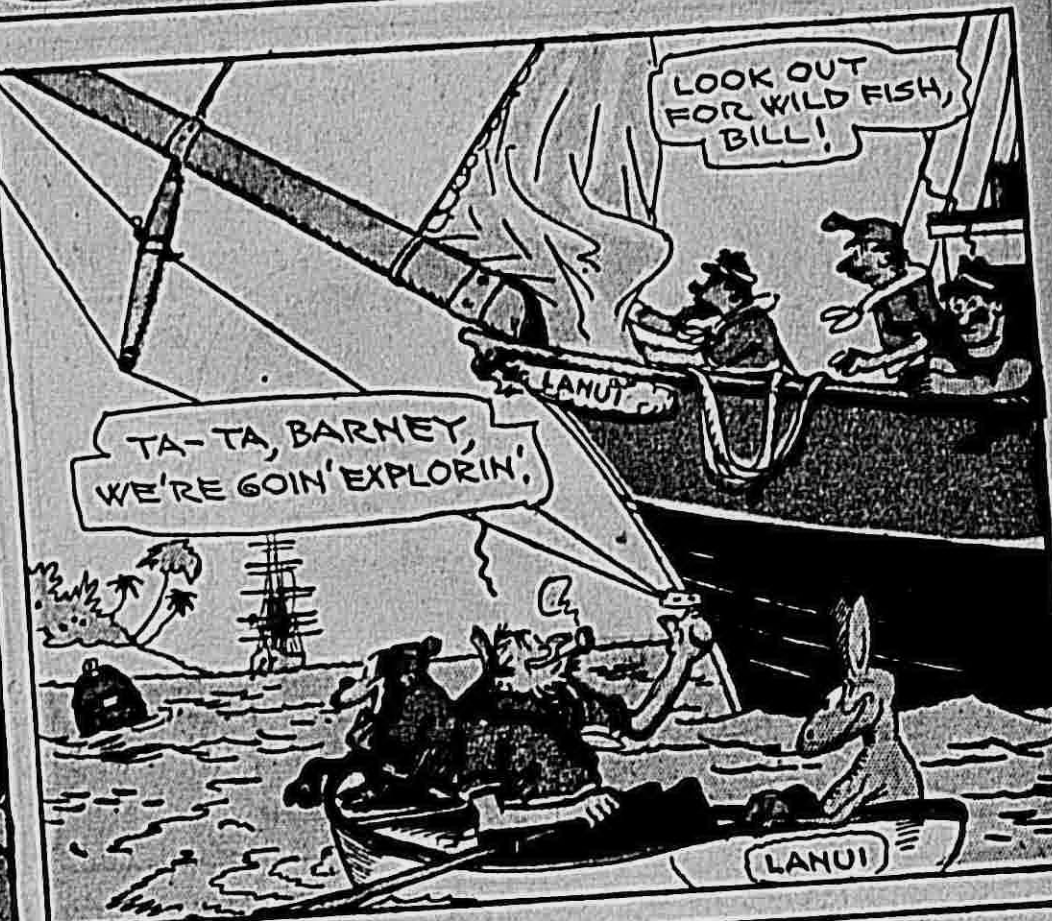

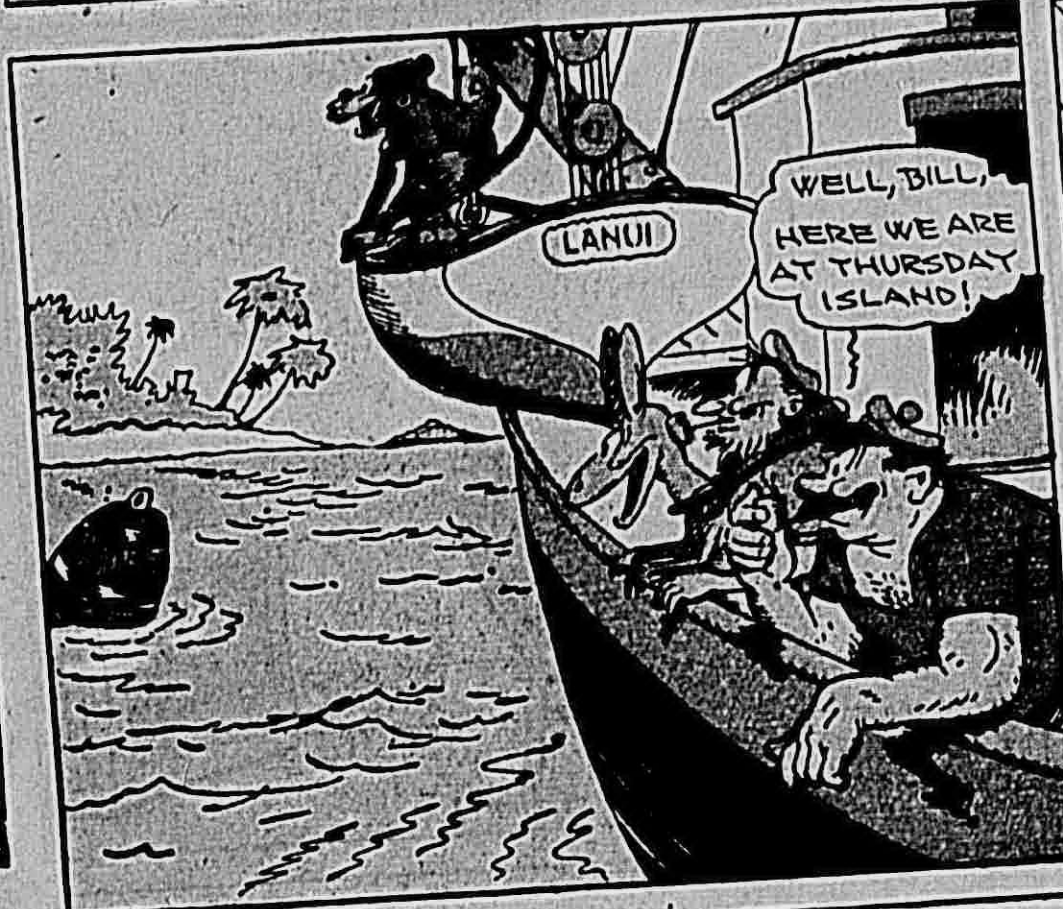

While my friends, Kanga and St. and I were cruisin' Tops! Barney, he yred his schooner in arbor at Thursday Isla th' Torres Straits. Schooner was goin' to bre for a few days so K! Singoot and I set off 'e of th' ship's boats a little explorin'.

While passin' a reef a few feet below surface of th' water law big masses of pink white coral, spotted striped shells, and st! fishes that stared upis with big goggled ey! In and out of th' waveaveed wriggled long, ge sea-eels that glare at us with a hungry.

Well s'r, prepon we came to th' prit little

tropical island you ever saw, with cocoanut-palms rustlin' in th' warm breeze. Th' island seemed so mysterious and quiet that I decided to go ashore to see what we could find. When we landed I spied some whoppin' big sea-turtles.

I thought I'd show Kanga and Singoot some real fun. So, after tellin' them not to make a sound, we crept up close to th' turtles, jumped in among 'em and hopped on the backs of th' three biggest ones. You'd have seen us ridin' those big scared turtles. But just as we got 'em goin' good they flapped into th' water and swam away. Then we saw th' prints of human feet on th' beach. In my next yarn I'll tell what happened.

I LOVE A GOOD STORY.

SO YOU DONT KNOW ANY NEW STORIES, HUH? THINK I'LL ASK SOME OF THESE STRANGERS.

HAVE YOU HEARD ANY NEW STORIES?

OH, I KNOW WE'RE NOT ACQUAINTED BUT DONT LET THAT KEEP YOU FROM TALKING TO ME.

HAVE YOU HEARD ANY NEW STORIES?

I AM DEAF

# THE KELLY KIDS

TIM AND TOM

MY GOSH DINNY THEY'RE AFTER US.

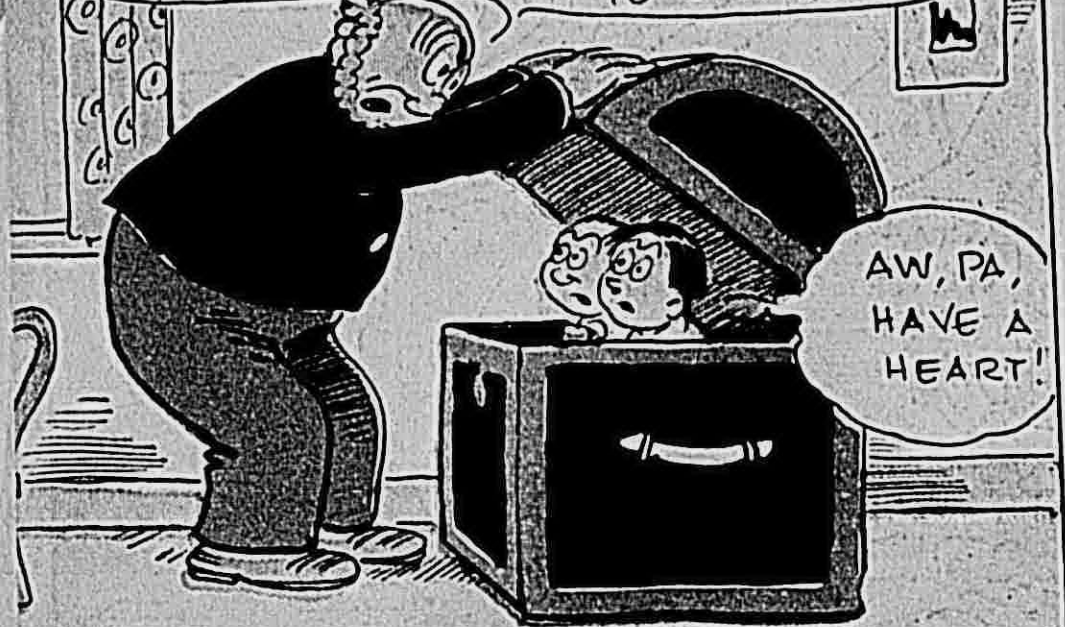

STATION W.O.O.F. BROADCASTING THE POLICE ARE SENDING OUT CIRCULARS OFFERING \$5000 REWARD FOR THE CAPTURE OF TWO NOTORIOUS CROOKS, PA AND DINNY KELLY WHO ARE WANTED AS KIDNAPPERS, BLACKMAILERS, AND EMBEZZLERS BY THE AUTHORITIES OF THIRTEEN STATES.

YOU TELL EM KID!

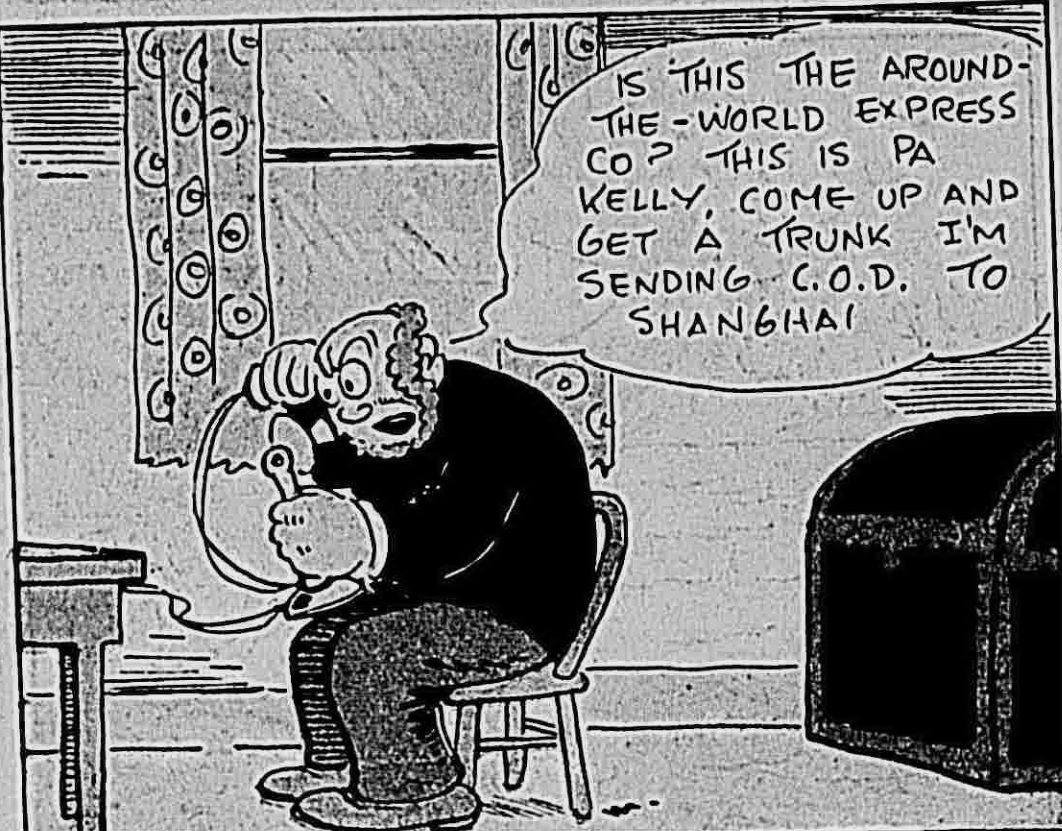

I'M SICK AND TIRED OF ALL THIS JOKE STUFF YOU'VE BEEN PULLIN' ON ME SO I'M GOIN' TO SHIP YOU TO SHANGHAI.

AW, PA, HAVE A HEART!

IS THIS THE AROUND-THE-WORLD EXPRESS CO? THIS IS PA KELLY, COME UP AND GET A TRUNK I'M SENDING C.O.D. TO SHANGHAI

I GUESS IT'S A LUCKY THING WE SAWED THE BOTTOM LOOSE IN THE OL' TRUNK.

THEY NEVER MISSED IT.

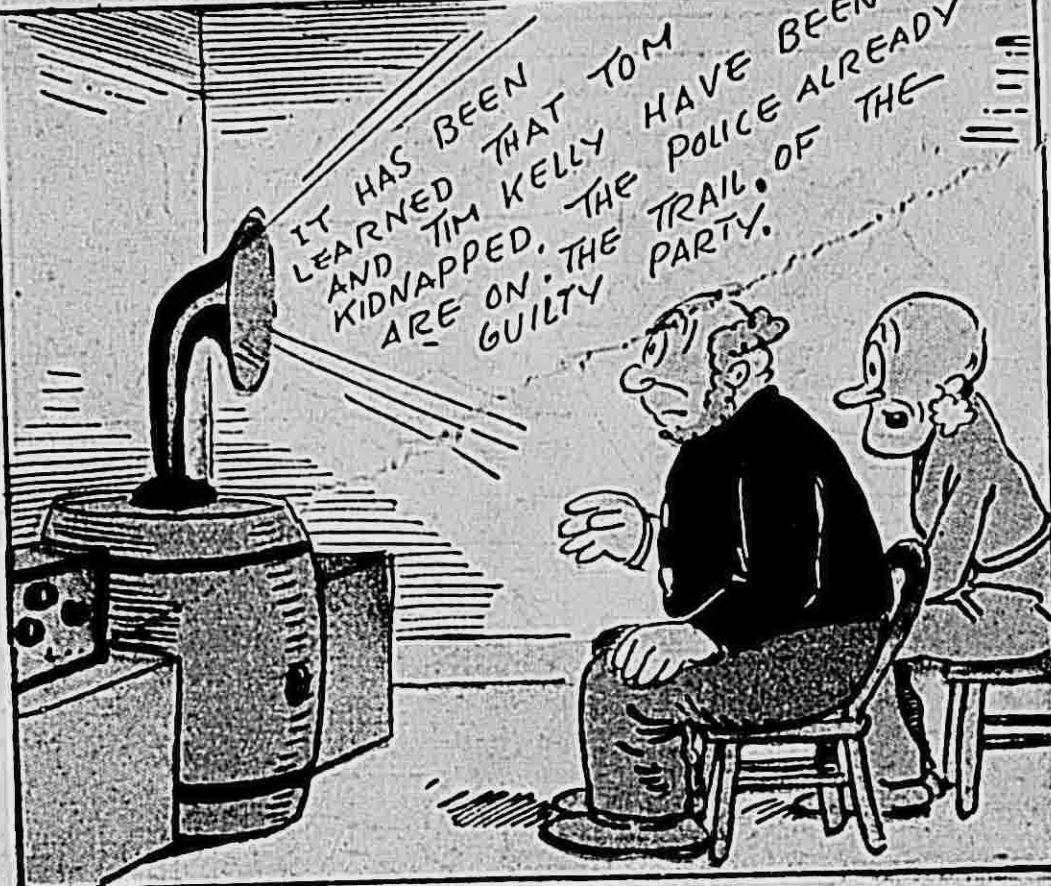

MAKE IT SNAPPY BOYS I'LL GIVE YOU A GOOD TIP.

YEP, BY NEXT WEEK THEY'LL BE A THOUSAND MILES AWAY.

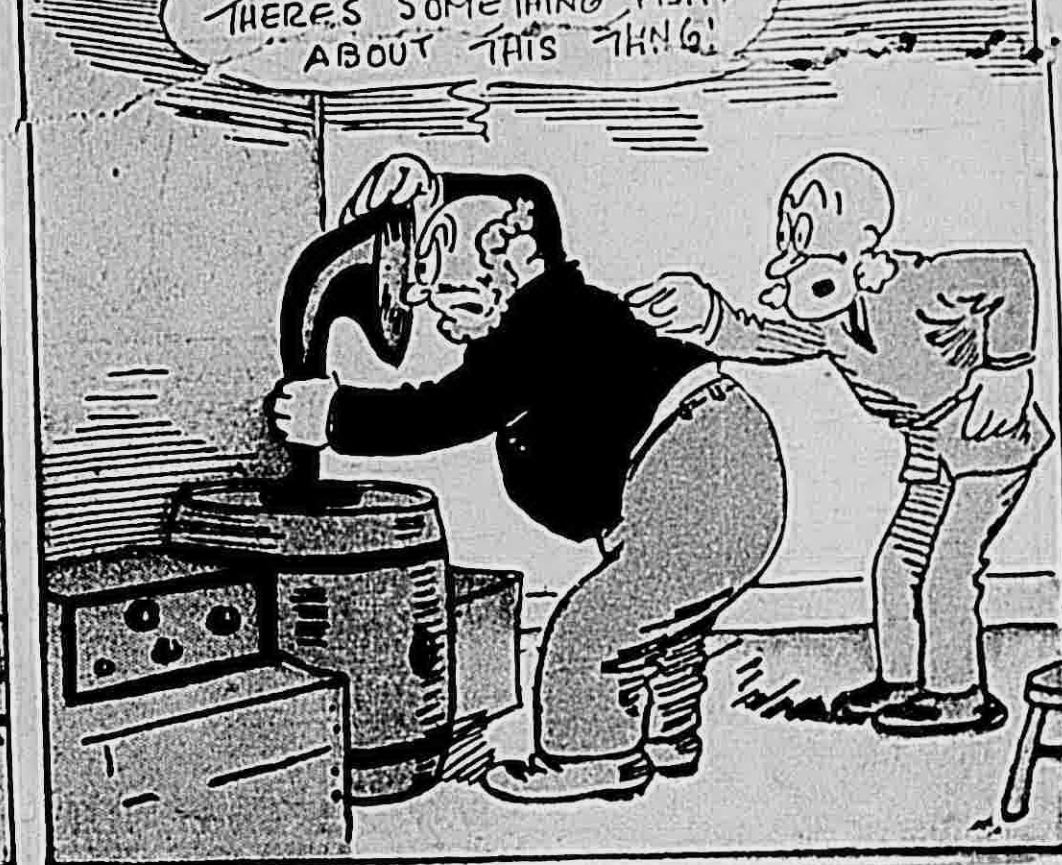

WE'LL GIVE PA A RADIO CONCERT TO CELEBRATE OUR DEPARTURE.

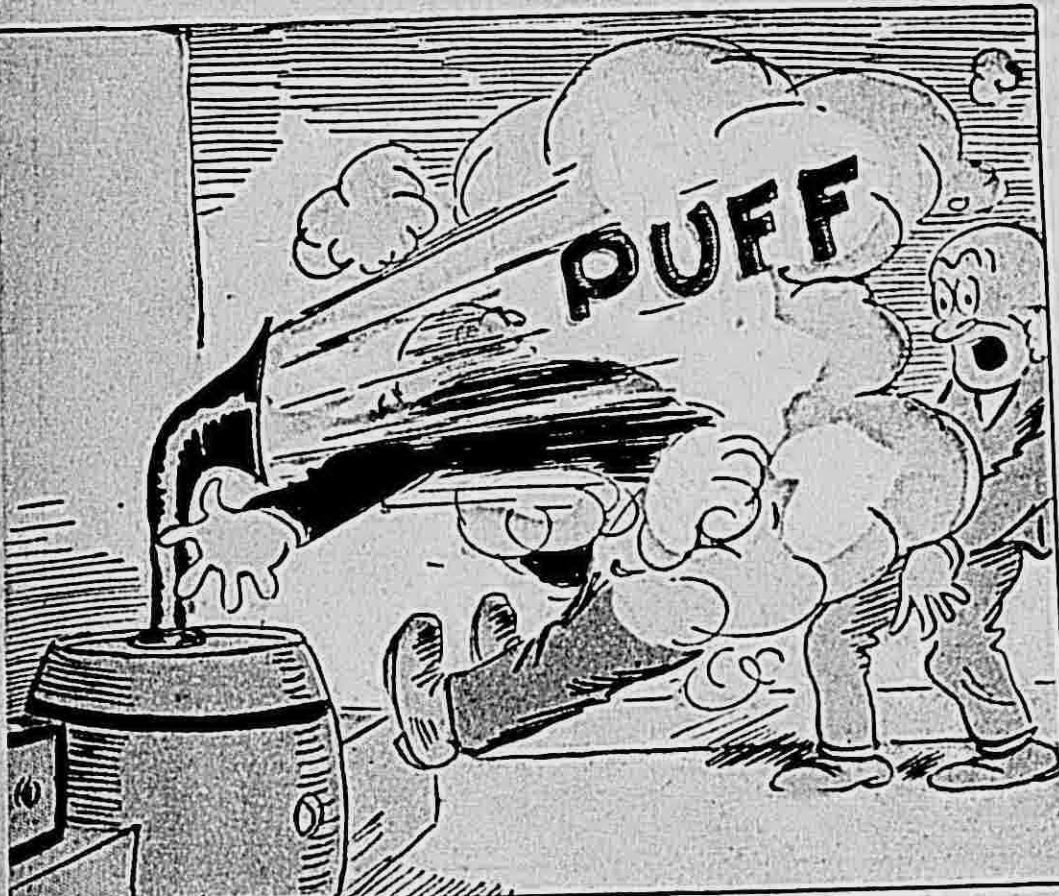

IT HAS BEEN LEARNED THAT TOM AND TIM KELLY HAVE BEEN KIDNAPPED. THE POLICE ALREADY ARE ON THE TRAIL OF THE GUILTY.

THERE'S SOMETHING FISHY ABOUT THIS THING!
